The Public School Parent's Guide to Success Bonnie Kerrigan Snyder, 2007-02 YOU control your child's destiny. Public school isn't perfect, but for most of us, it's our only realistic option. If you're ready to make the most of your child's academic opportunities and get serious about raising an outstanding top student, then this is the book you've been looking for. Filled with advice from Ivy League educated public school graduates, this book will explain how to create a public school educational experience that is as good as or better than what is available through private school, home schooling, or online education. Aside from discovering the secrets known by the parents of top public school students, you will also learn how to structure your family life to ensure academic success. Show your child how to get better grades in less time. Avoid demotivating your child. Gain confidence in managing your child's education and much more. Nothing is more important than your child's education, and parents hold the key to unlock academic success. Everything you need to know to enable your child to excel in public school is covered in **The Public School Parent's Guide to Success**.

Homeschooling: The Art of Real Life Education Mary Joyce Wright, 2015-01-29 Homeschooling is the process of educating one's children at home rather than at a public or private school. Books on the subject are vital to proper homeschooling. One of the most significant reasons is that the process is filled with a great deal of legal red tape and paperwork. It can help one navigate this often difficult subject in order to do everything fully within the law.

Homeschooling Samuel L. Blumenfeld, 1997 More and more parents today are disillusioned with public education. Instead of merely tolerating a faulty system, expanding numbers of parents are turning to alternative education for their children. Homeschooling describes what homeschooling is all about, helps parents decide whether or not this choice fits their family lifestyle, covers virtually every aspect of homeschooling, and more.
