The Oxford History of Classical Reception in English Literature David Hopkins, Charles Martindale, Norman Vance, Rita Copeland, Patrick Cheney, Jennifer Wallace, Philip R. Hardie, 2012 The Oxford History of Classical Reception OHCREL is designed to offer a comprehensive investigation of the numerous and diverse ways in which literary texts of the classical world have stimulated responses and refashioning by English writers Covering the full range of English literature from the early Middle Ages to the present day OHCREL both synthesizes existing scholarship and presents cutting edge new research employing an international team of expert contributors for each of the five volumes OHCREL endeavours to interrogate rather than inertly reiterate conventional assumptions about literary periods the processes of canon formation and the relations between literary and non literary discourse It conceives of reception as a complex process of dialogic exchange and rather than offering large cultural generalizations it engages in close critical analysis of literary texts It explores in detail the ways in which English writers engagement with classical literature casts as much light on the classical originals as it does on the English writers own cultural context This fourth volume and second to appear in the series covers the years 1790 1880 and explores romantic and Victorian receptions of the classics Noting the changing fortunes of particular classical authors and the influence of developments in archaeology aesthetics and education it traces the interplay between classical and nineteenth century perceptions of gender class religion and the politics of republic and empire in chapters engaging with many of the major writers of this period

The Translation Zone Emily Apter, 2011-10-16 Translation before 9 11 was deemed primarily an instrument of international

relations business education and culture Today it seems more than ever a matter of war and peace In *The Translation Zone* Emily Apter argues that the field of translation studies habitually confined to a framework of linguistic fidelity to an original is ripe for expansion as the basis for a new comparative literature Organized around a series of propositions that range from the idea that nothing is translatable to the idea that everything is translatable *The Translation Zone* examines the vital role of translation studies in the invention of comparative literature as a discipline Apter emphasizes language wars including the role of mistranslation in the art of war linguistic incommensurability in translation studies the tension between textual and cultural translation the role of translation in shaping a global literary canon the resistance to Anglophone dominance and the impact of translation technologies on the very notion of how translation is defined The book speaks to a range of disciplines and spans the globe Ultimately *The Translation Zone* maintains that a new comparative literature must take stock of the political impact of translation technologies on the definition of foreign or symbolic languages in the humanities while recognizing the complexity of language politics in a world at once more monolingual and more multilingual

The Path of Cinnabar Julius Evola, 2009 Julius Evola was a renowned Dadaist artist Idealist philosopher critic of politics and Fascism mystic anti modernist and scholar of world religions Evola was all of these things but he saw each of them as no more than stops along the path to life s true goal the realisation of oneself as a truly absolute and free individual living one s life in accordance with the eternal doctrines of the Primordial Tradition Much more than an autobiography *The Cinnabar Path* in describing the course of Evola s life illuminates how the traditionally oriented individual might avoid the many pitfalls awaiting him in the modern world More a record of Evola s thought process than a recitation of biographical facts one will here find the distilled essence of a lifetime spent in pursuit of wisdom in what is surely one of his most important works

writers were born or died or wrote In each essay a new emotional plane is reached revealing enticing connections As a novelist poet essayist and translator born into a multilingual environment Jaireth truly understands the power of words across languages and their integral connections to life of the body and the spirit Drawing on years of research translation and travel Spinoza's Overcoat and its illuminations of loss mortality and the reverie of writing will linger with readers Eloquent and original Jaireth's meditations on the lives of poets are full of astonishing details tender connections and the magnificent melancholy of devotion to words Encompassing matters of translation love mortality and homage this is a rare model of what might be called literary philosophy and an utter joy and surprise for anyone interested in the reading and writing life GAIL JONES author of The Death of Noah Glass Subhash Jaireth was born in India Between 1969 and 1978 he spent nine years in Russia studying geology and Russian literature In 1986 he migrated to Australia He has published writing in Hindi English and Russian and his novel After Love Transit Lounge 2012 was published in Spain in 2018 Successful Polish-English Translation Aniela Korzeniowska, Piotr Kuhiwczak, 2005 **The Ethnomusicology of Western Art Music** Laudan Nooshin, 2013-10-23 Since the late 1980s the boundaries between the musicologies have become increasingly blurred Most notably a growing number of musicologists have become interested in the ideas and methodologies of ethnomusicology and in particular in applying one of the central methodological tools of ethnomusicology ethnography to the study of Western art music a tradition which had previously been studied primarily through scores recordings and other historical sources Alongside this since the 1970s a small number of ethnomusicologists have also written about Western art music thus complicating the idea of ethnomusicology as the study of other music Indeed there has been a growth in this area of scholarship in recent years Approaching western art music through the perspectives of ethnomusicology can offer new and enriching insights to the study of this musical tradition as shown in the writings presented in this book The current volume is the first collection of essays on this topic and includes work by authors from a range of musicological and ethnomusicological backgrounds exploring a variety of issues including music in orchestral outreach programmes new audiences for classical music concerts music and conflict transformation ethnographic study of the rehearsal process and the politics of a high profile music festival This book was originally published as a special issue of Ethnomusicology Forum **The College Standard Dictionary of the English Language ...** Frank H.
