## **The Origins Of Christian Morality The First Two Centuries:**

The Origins of Christian Morality Wayne A. Meeks, 1993-01-01 By the time Christianity became a political and cultural force in the Roman Empire it had come to embody a new moral vision This wise and eloquent book describes the formative years from the crucifixion of Jesus to the end of the second century of the common era when Christian beliefs and practices shaped their unique moral order Wayne A Meeks examines the surviving documents from Christianity s beginnings some of which became the New Testament and shows that they are largely concerned with the way converts to the movement should behave Meeks finds that for these Christians the formation of morals means the formation of community the documents are addressed not to individuals but to groups and they have among their primary aims the maintenance and growth of these groups Meeks paints a picture of the process of socialization that produced the early forms of Christian morality discussing many factors that made the Christians feel that they were a single and chosen people He describes for example the impact of conversion the rapid spread of Christian household cult associations in the cities of the Roman Empire the language of Christian moral discourse as revealed in letters testaments and moral stories the rituals meetings and institutionalization of charity the Christians feelings about celibacy sex and gender roles and their sense of the end time and final judgment In each of these areas Meeks seeks to determine what is distinctive about the Christian viewpoint and what is similar to the moral components of Greco Roman or Jewish thought

**Origins of Christian Morality** Wayne A. Meeks, 1995 The Making of Paul Richard I. Pervo, The influence of the apostle Paul in early Christianity goes far beyond the reach of the seven genuine letters he wrote to early assemblies Paul was revered and fiercely opposed in an even larger number of letters penned in his name and in narratives told about him and against him that were included in our New Testament and far more often treasured and circulated outside it Richard Pervo provides an illuminating and comprehensive survey of the legacy of Paul and the various ways he was remembered honored and vilified in the early churches

**Reading Lucke-Acts in Its Mediterranean Milieu** Charles H. Talbert, 2003-01-01 This book begins by offering a reading of the theological views of Luke Acts in terms of Peter J Rabinowitz s authorial audience and closes with reflections on how one might assess the historical value of Acts

**The Sentences of Sextus and the Origins of Christian Asceticism** Daniele Pevarello, 2013-11-19 Daniele Pevarello analyzes the Sentences of Sextus a second century collection of Greek aphorisms compiled by Sextus an otherwise unknown Christian author The specific character of Sextus collection lies in the fact that the Sentences are a Christian rewriting of Hellenistic sayings some of which are still preserved in pagan gnomologies and in Porphyry Pevarello investigates the problem of continuity and discontinuity between the ascetic tendencies of the Christian compiler and aphorisms promoting self control in his pagan sources In particular he shows how some aspects of the Stoic Cynic Platonic and Pythagorean moral traditions such as sexual restraint voluntary poverty the practice of silence and of a secluded life were creatively combined with Sextus ascetic agenda against the background of the biblical tradition Drawing

on this adoption of Hellenistic moral traditions Pevarello shows how great a part the moral tradition of Greek paideia played in the shaping and development of self restraint among early Christian ascetics      *A History of Christian Conversion* David W. Kling, 2020-05-05 Conversion has played a central role in the history of Christianity In this first in depth and wide ranging narrative history David Kling examines the dynamic of turning to the Christian faith by individuals families and people groups Global in reach the narrative progresses from early Christian beginnings in the Roman world to Christianity s expansion into Europe the Americas China India and Africa Conversion is often associated with a particular strand of modern Christianity evangelical and a particular type of experience sudden overwhelming However when examined over two millennia it emerges as a phenomenon far more complex than any one dimensional profile would suggest No single unitary paradigm defines conversion and no easily explicable process accounts for why people convert to Christianity Rather a multiplicity of factors historical personal social geographical theological psychological and cultural shape the converting process *A History of Christian Conversion* not only narrates the conversions of select individuals and peoples it also engages current theories and models to explain conversion and examines recurring themes in the conversion process divine presence gender and the body agency and motivation testimony and memory group and self identity authentic and nominal conversion and modes of communication Accessible to scholars students and those with a general interest in conversion Kling s book is the most satisfying and comprehensive account of conversion in Christian history to date this major work will become a standard must read in conversion studies      **The Change of Conversion and the Origin of Christendom** Alan Kreider, 2007-05-01 This book focuses on conversion and Christendom and the relationship of one to the other Alan Kreider helps readers think about the meaning of the word Christendom its character and inner dynamics arguing that methods of conversion produced Christendom This study then examines Christendom as the product of conversion the latter understood as changes within categories of belief belonging and behavior      Identity, Ethics, and Ethos in the New Testament Jan G. van der Watt, 2012-02-13 The book deals with the relation between identity ethics and ethos in the New Testament The focus falls on the way in which the commandments or guidelines presented in the New Testament writings inform the behaviour of the intended recipients The habitual behaviour ethos of the different Christian communities in the New Testament are plotted and linked to their identity Apart from analytical categories like ethos ethics and identity that are clearly defined in the book efforts are also made to broaden the specific analytical categories related to ethical material The way in which for instance narratives proverbial expressions imagery etc inform the reader about the ethical demands or ethos is also explored

 endorses feminist critiques of gender yet upholds the insight of traditional Christianity that sex commitment and parenthood  
 are fulfilling human relations Their unity is a positive ideal though not an absolute norm Women and men should enjoy equal  
 personal respect and social power In reply to feminist critics of oppressive gender and sex norms and to communitarian  
 proponents of Christian morality Cahill argues that effective intercultural criticism of injustice requires a modest defence of  
 moral objectivity She thus adopts a critical realism as its moral foundation drawing on Aristotle and Aquinas Moral judgment  
 should be based on reasonable practical prudent and cross culturally nuanced reflection on human experience This is  
 combined with a New Testament model of community centred on solidarity compassion and inclusion of the economically or  
 socially marginalised     *The Community of the Word* Mark Husbans, Daniel J. Treier, 2009-09-20 Do North American

Conscience and Prayer takes the new conversation between Christian spirituality and moral theology to a deeper level of precision and focus The authors argue that the relationship between moral theology and spirituality can best be explored by looking at how conscience is related to prayer In exploring this relationship both historically and theologically Billy and Keating open new ways to approach the fundamental aspects of Catholic moral theology BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved      **Ambrose, Augustine, and the Pursuit of Greatness** J. Warren Smith, 2020-12-10 Two important theologians of early Christianity were Ambrose of Milan and Augustine of Hippo Both were intellectually formed by philosophers such as Cicero who taught that virtue was the way to greatness Yet they saw contradictions between Roman and Christian ethical ideals Could these competing visions of greatness be reconciled

**Singing Reconciliation: Inhabiting the Moral Life According to Colossians 3:16** Amy Whisenand Krall, 2023-10-30 The letter to the Colossians contains a series of moral instructions in Colossians 3 12 17 and includes the admonition to sing among them This study considers how music making specifically singing supports moral formation according to the letter to the Colossians Studies in ethnomusicology anthropology of the voice and music psychology offer useful frameworks for conceptualizing how a social practice like music making forms participants into a community and shapes how they know themselves their community and the world With the aid of these frameworks we find that the singing in Colossians 3 16 as a corporate vocal practice of music making enables the members of the church community to inhabit the story of reconciliation found in the Christ Hymn Col 1 15 20      **Pauline Politics** Daniel Oudshoorn, 2020-03-10 The Pauline Epistles have been claimed as a useful ally by parties across the political spectrum Neoconservatives claim that Paul and his coworkers were law abiding authority honoring devoutly religious people oriented around their respect for hard work private property and family values Liberals claim that the Pauline faction was devoted to the celebration of diversity internally transcending social markers of status and the embrace of peace Radicals claim that Paul was a leader within an anti imperial revolutionary movement sweeping across the eastern portion of the Roman Empire However it is rare for these and still other parties to engage in dialogue with each other because each party tends to operate with presuppositions that make open engagement difficult Pauline Politics examines the main positions taken in relation to Paul and politics and then engages in a thorough examination of the underlying arguments used to argue that this or that position is more or less plausible Underlying arguments tend to relate to two things first positions on the socioeconomic status of Paul his coworkers and other early Jesus loyalists and second positions on Pauline eschatology This volume will comprehensively explore these matters      *The*
