The Passion Premise English Edition:

The Passion for Music: A Sociology of Mediation Antoine Hennion, 2017-07-05 Music is an accumulation of mediators instruments languages sheets performers scenes media and so on There is no musical object in itself music must always be made again In this innovative book Hennion turns the elusiveness of music into a resource for a pragmatic analysis by which collective process do we make music appear among us Rather than offering a sociology of music The Passion for Music listens to the lesson provided by the case of music this art of infinite mediations Learning from music allows us to transform the paradigm to be offered by sociology by confronting it from Durkheim and Weber to Bourdieu with a different way of considering objects For this task Hennion draws on aesthetics Adorno and art history Haskell Baxandall as well as science and technology studies and popular music studies Latour Frith DeNora As part of that project The Passion for Music presents a wide ranging series of case studies restoring attention to the rich and varied intermediaries through which music is brought to life from the debate around the reinterpretation of baroque music to the classroom the rock scene the classical music concert Bach's social career in the nineteenth and twentieth centuries and the practices of music amateurs today This is the first English translation of one of the most important works of French scholarship on music and society **The kingdom of God on earth, revised by W.H.
