University Of Eastern Cape 2016 Prospectus:

China's Provinces and the Belt and Road Initiative Dominik Mierzejewski, 2021-03-30 This book discusses the Belt and Road Initiative at the provincial level in China. It analyses the evolution of the role of local governments in Chinese foreign policy since the opening of China's economy in 1978, showing how the provinces initially competed with each other and how the central government was forced to react, developing more centralised policies. Unlike other books on the Belt and Road Initiative which focus on the international aspects of the initiative, this book demonstrates the importance of the Belt and Road in reinforcing China's unitary status and for managing and coordinating development at the local level, as well as centre-province relations and province-to-province relations inside China. *Accessions List, Eastern and Southern Africa* Library of Congress. Library of Congress Office, Nairobi, Kenya, 1994

Business History of Hospitals in the 20th Century Paloma Fernández Pérez, 2024-06-14 This book offers a business history of modern hospitals in the 20th century. Presenting case studies from around the world, it examines the long-term institutional and historical evolution of hospital organization and management models, applying a business history approach to do so. Drawing on reports from international organizations and other historical data, it explores the evolution path, dependencies, actors, and institutions that have shaped the diversity of hospital organization and management models. At the same time, it analyzes the historical origins of major problems faced by today's hospitals, such as cost inefficiencies, lack of specialized human capital, etc. The contributing authors cover topics such as the history of hospital finance and accounting, hospital price regulation, entrepreneurship models, hospital privatization, and hospital governance. The book will appeal to scholars and students of economic and business history and to anyone interested in the history of hospitals.

Recalibrating teacher training in African higher education institutions Sifiso Sibanda, Gideon (Deon) P. van Tonder, Washington T. Dudu, 2023-03-01 This book critically examines the role of governments in promoting parity during and in post-pandemic education. This comes from the realisation that the pandemic has deepened the crisis by depleting the meagre resources that African countries might have devoted to normative educational practices, where those on the margins would have been pushed further behind while the privileged would have been further initiated into the cultural and capital flows of private schools and historically research-intensive institutions of higher learning. This has far-reaching implications for the education of underprivileged citizens, and education, particularly modes and modalities of delivery, has to be reimaged to subvert the challenges wrought by the pandemic. This book significantly bridges the gap between the pre and post-COVID-19 pandemic pedagogical practices and the erstwhile modalities that have been resilient over time. The book focuses on ways to stave off pedagogical challenges that face countries as the global pandemic makes its mark.

Assembly Codes Matthew Hockenberry, Nicole Starosielski, Susan Zieger, 2021-08-02 The contributors to *Assembly Codes* examine how media and logistics set the conditions for the circulation of information and culture. They document how logistics, the techniques of organizing and coordinating the movement of materials, bodies, and information, has substantially

impacted the production distribution and consumption of media At the same time physical media such as paperwork along with media technologies ranging from phone systems to software are central to the operations of logistics The contributors interrogate topics ranging from the logistics of film production and the construction of internet infrastructure to the environmental impact of the creation distribution and sale of vinyl records They also reveal how logistical technologies have generated new aesthetic and performative practices In charting the specific points of contact dependence and friction between media and logistics Assembly Codes demonstrates that media and logistics are co constitutive and that one cannot be understood apart from the other Contributors Ebony Coletu Kay Dickinson Stefano Harney Matthew Hockenberry Tung Hui Hu Shannon Mattern Fred Moten Michael Palm Ned Rossiter Nicole Starosielski Liam Cole Young Susan Zieger

Higher Education - Reflections From the Field - Volume 1 ,2023-11-02 COVID wrought havoc on the world s economic systems Higher education did not escape the ravages brought on by the pandemic as institutions of higher education around the world faced major upheavals in their educational delivery systems Some institutions were prepared for the required transition to online learning Most were not Whether prepared or not educators rose to the challenge The innovativeness of educators met the challenges as digital learning replaced the face to face environment In fact some of the distance models proved so engaging that many students no longer desire a return to the face to face model As with all transitions some things were lost while others were gained This book examines practice in the field as institutions struggled to face the worst global pandemic in the last century The book is organized into four sections on The Perspectives of Higher Education COVID as a Catalyst for Change Embracing Online Learning as a Response to COVID and Post Covid The Way Forward It presents various perspectives from educators around the world to illustrate the struggles and triumphs of those facing new challenges and implementing new ideas to empower the educational process These discussions shed light on the impact of the pandemic and the future of higher education post COVID Higher education has been forever changed and higher education as it once was may never return While many questions arise the achievements in meeting and overcoming the pandemic illustrate the creativity and innovativeness of educators around the world who inspired future generations of learners to reach new heights of accomplishment even in the face of the pandemic
