ship in time Conversely the mission of the ANC was widely perceived to be to shift wealth and power into the hands of the whole community Yet despite black empowerment measures corporate ownership remains largely in white hands and certainly in the hands of an elite few even though no longer restricted to whites This picture is replicated across the global south where corporate ownership tends to be concentrated in the hands of an elite rather than being more democratically spread Why have alternative corporate forms not been pursued more vigorously with ownership in the hands of customers employees and local communities In the case of South Africa where the majority of customers and employees are black this could have delivered on the ANC s mission to replace the apartheid era with a democratic one in terms of wealth incomes and power as well as in terms of voting and civic rights This edited volume explores all these questions and looks at ways to align corporate forms with economic and social goals The chapters in this book were originally published as special issues of International Review of Applied Economics *Electronic Commerce: Concepts, Methodologies, Tools, and Applications* Becker, Annie,2007-12-31 Compiles top research from the world s leading experts on many topics related to electronic commerce Covers topics including mobile commerce virtual enterprises business to business applications Web services and enterprise methodologies **The Lancet** ,1895 **New Scientist** ,1969 Bulletin No. 1-3 Illinois Miners' and Mechanics' Institutes,1914 **Importing Transnational Education** Vangelis Tsiligiris,William Lawton,Christopher Hill,2020-12-19 This book explores the impacts of transnational education TNE from the perspectives of institutions and countries that primarily act as hosts The authors describe and analyse TNE across a wide geographical area comprised of both established and emerging TNE host countries from Europe to Southeast Asia to less discussed countries such as Nepal and Uzbekistan Complementing the 2018 volume Exporting Transnational Education Institutional Practice Policy and National Goals the book is organised into three principal themes the impacts of TNE on capacity building the sustainability of such developments and the impacts on the student experience in host countries As TNE is a dynamic and fast moving area of international higher education this book will appeal to scholars and administrators of international and transnational education **New Statesman** ,1961
