Midgley, Jennifer Veitch, Christian Brümmer, Reimund P. Rötter, Finn A. Viehberg, Maik Veste, 2024-01-05 This open access book about the sustainability of marine and terrestrial

ecosystems in southern Africa provides a synthesis of the research program Science Partnerships for the Adaptation to Complex Earth System Processes SPACES II 2018 2022 It addresses the scientific social and economic issues related to climate change its potential impacts on the various ecosystems adaptations and management interventions for enhancing systems resilience in Southern Africa It is written by numerous scientists from African states and Germany and summarizes the latest research findings which are of great relevance for a better understanding of climate change impacts adaptations and vulnerabilities as well as for developing management options and policy options to reduce the associated risks This is crucial considering that the projected African population increase is exceptional Furthermore climate change is assumed to hit southern Africa extremely hard with a significant increase in extreme events and the frequency of severe droughts heat waves and flooding Southern Africa hosts a high variety of ecosystems which belongs to important biodiversity hotspots for unique flora and fauna The surrounding oceans form in turn a bottle neck within the ocean's global thermohaline circulation act as a still poorly understood carbon sink and source and play an important role for fisheries as they are highly productive Considering these important aspects the book is an important interdisciplinary contribution to the scientific literature and will find a wide readership The book is aimed at students teachers and scientists in the fields of terrestrial and marine ecology environmental nature and landscape planning agriculture environmental and resource management biodiversity and nature conservation as well as scientists and representatives in specialised authorities and associations nature conservationists and policy makers of related disciplines

**Minorities, Scarcity and Conflict** Antonio Montañés Jiménez, Camila Ferreira Marinelli, Stavroula Pipyrrou, 2025-07-17 This volume places scarcity as a defining aspect of minorities experience and as a tool to comprehend ongoing and unresolved societal friction and global environmental challenges strategies for survival and reproduction of the status quo and aspirational desires for social mobility The book is an experimental collective intellectual project departing from conventional approaches to scarcity solely as a resource based economic or demographic concept Boldly the book looks at the ways in which disadvantaged social groups navigate their lives through scarcity and how these circumstances are endured interpreted accepted or challenged In a thought provoking turn the book makes a novel contribution to minority studies by engaging with scarcity not only concerning resources but also emotion memory and affect In analysing scarcity as a multidimensional analytical framework and interrogating it from manifold angles the book unpacks uncharted ramifications of debates around scarcity and opens new lines of enquiry The collection will be a valuable resource for academics researchers and policymakers working in the areas of law political anthropology and sociology

[Encyclopedia of Stateless Nations](#) James B. Minahan, 2016-08-01 This book addresses the numerous national movements of ethnic groups around the world seeking independence more self rule or autonomy movements that have proliferated exponentially in the 21st century In the last 15 years globalization religious radicalization economic changes endangered cultures and languages cultural suppression racial tensions and many other factors have

stimulated the emergence of autonomy and independence movements in every corner of the world even in areas formerly considered immune to self government demands such as South America Researching the numerous ethnic groups seeking autonomy or independence worldwide previously required referencing many specialized publications This book makes this difficult to find information available in a single volume presented in a simple format accessible to everyone from high school readers to scholars in advanced studies programs The book provides an extensive update to Greenwood s Encyclopedia of the Stateless Nations Ethnic and National Groups around the World that was published more than a decade earlier Each ethnic group receives an alphabetically organized entry containing information such as alternate names population figures flag or flags geography history culture and languages All the information readers need to understand the motivating factors behind each movement and the current situation of each ethnic group is presented in a compact summary Fact boxes at the beginning of each entry enable students to quickly access key information and consistent entry structure makes for easy cross cultural comparisons South Africa Yearbook ,2009 *Nematology in South Africa: A View from the 21st Century* Hendrika Fourie,Vaughan W. Spaull,Robin K. Jones,Mieke S. Daneel,Dirk De Waele,2017-02-28 This unique book contains not only a comprehensive up to date summary of the achievements made in all areas of Nematology in South Africa over more than half a century but it also combines this rather technical part with an insiders narrative of how Nematology started and developed It also demonstrates how the South African community of nematologists gradually adapted to major changes in agriculture These were due to a major political shift followed by socio economic changes and this in an often challenging natural environment At the same time this book is conceived as a useful source for young scientists to provide them with practical knowledge and critical insight in the field of Nematology The information given is based primarily on research conducted by nematologists in South Africa Most of this research was aimed at finding workable solutions for nematological problems confronted by both large scale commercial producers and smallholding farmers During a period when funding for scientific research is becoming increasingly scarce the future demand and quest for practical solutions by applied research will only increase **Africa's Urban Youth** Amy S. Patterson,Tracy Kuperus,Megan Hershey,2023-08-10 Making up 65 percent of Africa s population young people between the ages of 18 and 35 play a key role in politics yet they live in an environment of rapid urbanization high unemployment rates and poor state services Drawing from extensive fieldwork in Ghana Uganda and Tanzania this book investigates how Africa s urban youth cultivate a sense of citizenship in this challenging environment and what it means to them to be a good citizen In interviews and focus group discussions African youth activists and community leaders vividly explain how income religion and gender intertwine with their sense of citizenship and belonging Though Africa s urban youth face economic and political marginalization as well as generational tensions they craft a creative citizenship identity that is rooted in their relationships and obligations both to each other and the state Privileging above all the voice and agency of Africa s young people this is a vital systematic examination of youth

and youth citizenship in urban environments across Africa

**The Politics of Precarity** Gediminas Lesutis, 2021-12-30

Based on critical theory and ethnographic research this book explores how intensifying geographies of extractive capitalism shape human lives and transformative politics in marginal areas of the global economy Engaging the work of Judith Butler Henri Lefebvre and Jacques Rancière with ethnographic research on social and political effects of mining induced dispossession in Mozambique in the book Lesutis theorises how precarity unfolds as a spatially constituted condition of everyday life given over to the violence of capital Going beyond labour relations or governance of life in liberal democracies that are typically explored in the literature on precarity the book shows how dispossessed people are subjected to structural symbolic and direct modalities of violence this simultaneously constitutes their suffering and ceaseless desire however implausible to be included into abstract space of extractivism As a result despite the multifarious violence that it engenders extractive capital accumulation is sustained even in the margins historically excluded from contingently lived imaginaries of a good life promised by capitalism Presenting this theorisation of precarity as a framework on and a critique of the contemporary politics of unliveability the book speaks to key debates about precarity dispossession resistance extractivism and development in several disciplines especially political geography IPE global politics and critical theory It will also be of interest to scholars in development studies critical political economy and African politics

*Anthropology and Responsibility*

Melissa Demian, Mattia Fumanti, Christos Lynteris, 2023-03-31 This book explores the role and implications of responsibility for anthropology asking how responsibility is recognised and invoked in the world what relations it draws upon and how it comes to define notions of the person institutional practices ways of knowing and modes of evaluation The category of responsibility has a long genealogy within the discipline of anthropology and it surfaces in contemporary debates as well as in anthropologists' collaboration with other disciplines including when anthropology is applied in fields such as development medicine and humanitarian response As a category that unsettles challenges and critically engages with political ethical and epistemological questions responsibility is central to anthropological theory ethnographic practice collaborative research and applied engagement With chapters focused on a variety of cultural contexts this volume considers how anthropology can contribute to a better understanding of responsibility including the responsibility of anthropology and the responsibility of anthropologists to specific others

Bright Molale, Abiodun Salawu, Mohammad Sahid Ullah, Enrique Uribe-Jongbloed, 2023-05-22 Indigenous Language for Social Change Communication in the Global South brings together voices from the margins to engage in dialogue about common social change issues in Latin America Africa and Asia This book argues that resistance and social movements expressed in music and songs and exchanged via radio remain fundamental to ensure that the linguistic and cultural diversity of the world progresses despite colonizing pressures Contributors present cases that explore how indigenous communities use mediums such as the radio to help support their language identity and expand their own social change Highlighting the centrality of

music in the development of political discussions and language as a central part of collective identity contributors analyze how these mediums function as both a vessel and a link for information and cultural cohesion of those engaging in social change Scholars of communication sociology and development studies will find this book of particular interest

**Proceedings of the International Conference on Education Research** Reza Hosseini, *The Archaeology of Southern Africa* Peter Mitchell, 2024-06-06 Some of humanity's earliest ancestors lived in southern Africa and evidence from sites there has inspired key debates on human origins and the emergence of complex cognition Building on its rich rock art heritage archaeologists have developed theoretical work that continues to influence rock art studies worldwide with the relationship between archaeological and anthropological data central to understanding past hunter gatherer pastoralist and farmer communities alike New work on pre colonial states contests models that previously explained their emergence via external trade while the transformations wrought by European colonialism are being rewritten to emphasise Indigenous agency feeding into efforts to decolonise the discipline itself Inhabited by humans longer than almost anywhere else and with an unusually varied complex past southern Africa thus has much to contribute to archaeology worldwide In this revised and updated edition Peter Mitchell provides a comprehensive and extensively illustrated synthesis of its archaeology over more than three million years

Higher Education Pathways Paul Ashwin, M. Case, 2018-12-13 In what ways does access to undergraduate education have a transformative impact on people and societies What conditions are required for this impact to occur What are the pathways from an undergraduate education to the public good including inclusive economic development These questions have particular resonance in the South African higher education context which is attempting to tackle the challenges of widening access and improving completion rates in a system in which the segregations of the apartheid years are still apparent Higher education is recognised in core legislation as having a distinctive and crucial role in building post apartheid society Undergraduate education is seen as central to addressing skills shortages in South Africa It is also seen to yield significant social returns including a consistent positive impact on societal institutions and the development of a range of capabilities that have public as well as private benefits This book offers comprehensive contemporary evidence that allows for a fresh engagement with these pressing issues

**Lithic Technological Organization and Paleoenvironmental Change** Erick Robinson, Frédéric Sellet, 2017-11-06 The objective of this edited volume is to bring together a diverse set of analyses to document how small scale societies responded to paleoenvironmental change based on the evidence of their lithic technologies The contributions bring together an international forum for interpreting changes in technological organization embracing a wide range of time periods geographic regions and methodological approaches As technology brings more refined information on ancient climates the research on spatial and temporal variability of paleoenvironmental changes In turn this has also broadened considerations of the many ways that prehistoric hunter gatherers may have responded to fluctuations in resource bases From an archaeological perspective stone tools and their

associated debitage provide clues to understanding these past choices and decisions and help to further the investigation into how variable human responses may have been Despite significant advances in the theory and methodology of lithic technological analysis there have been few attempts to link these developments to paleoenvironmental research on a global scale
