**Calculations and Simulations of Low-Dimensional Materials** Ying Dai, Wei Wei, Yandong Ma, Chengwang Niu, 2022-08-05 Calculations and Simulations of Low Dimensional Materials A comprehensive guide to methods for calculating and simulating the properties of low dimensional materials Two dimensional materials are those such as graphene and 2D oxides whose thickness is so small as to approach the atomic scale Potential applications for these materials exist in an enormous range of scientific and industrial fields A previous era of low dimensional materials focused on

direct experimentation to demonstrate the properties reactions and potential applications of these materials however in recent years calculation and simulation have been shown to have considerable predictive power reducing the period between design and deployment of these potentially critical materials

**Calculations and Simulations of Low Dimensional Materials** offers the first comprehensive survey of this exciting new approach to low dimensional materials It guides readers through the foundational physics and through a range of calculation and simulation methods each with different predictive capacities Mastery of these methods will enable readers to narrowly tailor the properties of particular materials towards real world applications providing confidence in the underlying mechanics and in the range of possible outcomes

**Calculations and Simulations of Low Dimensional Materials** readers will also find Broad coverage of material properties including electronic spin magnetic photonic optical electrochemical and transport properties Discussion of potential applications in areas such as electronics spintronics and valleytronics Examination of further potential applications regarding quantum Hall phase photonics optoelectronics multiferroic and photocatalysis

**Calculations and Simulations of Low Dimensional Materials** is a useful reference for materials scientists electrochemists inorganic chemists physical chemists photochemists and the libraries that support these professions
