Question 27.1

27.2B Why does an improvement in productivity no longer stimulate the economy when individuals have fixed their wages?

27.2C Describe how an increase in the money supply stimulates the economy.

27.2D What happens to the exchange rate, the terms of trade, and the current account when the monetary authorities raise the money supply.

27.2E Explain whether the home economy is better off when monetary authorities decide to raise the money supply after an improvement of productivity.
