Anderson, 1991-11-04 Anderson charts the construction of Chinatown in the minds and streets of the white community of Vancouver over a hundred year period She shows that Chinatown from the negative stereotyping of the late nineteenth and early twentieth centuries to its current status as an ethnic neighbourhood has been stamped by changing European ideologies of race and the hegemonic policies those ideas have shaped The very existence of the district is the result of a regime of cultural domination that continues to exist today Anderson clearly rejects the concept of race as a means of distinguishing between groups of human beings She points out that because the implicit acceptance of public beliefs about race affects the types of questions asked by researchers the issue of the ontological status of race is as critical for commentators on society as it is for scientists studying human variation Anderson applies this fresh approach toward the concept of race to a critical examination of popular media and academic treatments of the Chinatown in Vancouver

Hill, 2002 **Selling EthniCity** Olaf Kaltmeier, 2016-04-01 Bringing together a multidisciplinary team of scholars this book explores the importance of ethnicity and cultural economy in the post Fordist city in the Americas It argues that cultural political and economic elites make use of cultural and ethnic elements in city planning and architecture in order to construct a unique image of a particular city and demonstrates how the use of ethnicized cultural production such as urban branding based on local identities by the economic elite raises issues of considerable concern in terms of local

identities as it deploys a practical logic of capital exchange that can overcome forms of cultural resistance and strengthen the hegemonic colonization of everyday life At the same time it shows how ethnic communities are able to use ethnic labelling of cultural production ethnic economy or ethno tourism facilities in order to change living conditions and to empower its members in ways previously impossible Of wide ranging interest across academic disciplines this book will be a useful contribution to Inter American studies
