Negotiating Boundaries in Medieval Literature and Culture Valerie B. Johnson, Kara L. McShane, 2022-03-21 Thomas Hahn's work laid the foundations for medieval romance studies to embrace the study of alterity and hybridity within Middle English literature His contributions to scholarship brought Robin Hood studies into the critical mainstream normalized the study of historically marginalized literature and peoples and encouraged scholars to view medieval readers as actively encountering others and exploring themselves This volume employs his methodologies careful attention to texts and their contexts cross cultural readings and theoretically informed analysis to highlight the literary culture of late medieval England afresh Addressing long established canonical works such as Chaucer Christine de Pizan and Malory alongside understudied traditions and manuscripts this book will be of interest to literary scholars of the later Middle Ages who like Hahn work across boundaries of genre tradition and chronology

The Avignon Popes and the Eastern Mediterranean James Hill, 2025-05-15 An exploration of how popes attempted to construct maintain and represent their power beyond Europe's eastern frontiers during the Avignon period of the 14th century After the main numbered crusades concluded with the loss of the Holy Land at the end of the 13th century the papacy did not withdraw from or scale back its interests and activities in the Eastern Mediterranean As the papacy moved to Avignon in 1305 in part to be nearer the increasingly troublesome Western and Northern European kingdoms it maintained strong ties with the East and claimed control over a wide range of activities in the Eastern Mediterranean This book based primarily on the letters sent by the popes in the Vatican Archives explores the power and authority of the popes in their attempts at influencing events in the Eastern Mediterranean during the 14th century *The Avignon Popes and the Eastern Mediterranean* explores a wide set of circumstances and situations taking into account efforts to control Latin activity beyond Europe how the popes interacted with and attempted to control non Latin Churches and how the popes acted as a Europe wide political body in diplomatic activities with the Mamluks and the Mongols James Hill looks at how in its dealings with the wider world the papacy continuously encountered the same issue its

position as head of the Church gave it significant authority but it was often unable to compel actions it wanted Hill expertly charts how the popes attempted to use their authority to achieve concrete results and the extent to which those attempts were successful

Travel, Time, and Space in the Middle Ages and Early Modern Time Albrecht Classen, 2018-10-22 Research on medieval and early modern travel literature has made great progress which now allows us to take the next step and to analyze the correlations between the individual and space throughout time which contributed essentially to identity formation in many different settings The contributors to this volume engage with a variety of pre modern texts images and other documents related to travel and the individual s self orientation in foreign lands and make an effort to determine the concept of identity within a spatial framework often determined by the meeting of various cultures Moreover objects images and words can also travel and connect people from different worlds through books The volume thus brings together new scholarship focused on the interrelationship of travel space time and individuality which also includes of course women s movement through the larger world whether in concrete terms or through proxy travel via readings Travel here is also examined with respect to craftsmen s activities at various sites artists employment for many different projects all over Europe and elsewhere and in terms of metaphysical experiences catabasis

The Expansion of Central Europe in the Middle Ages Nora Berend, 2017-05-15 This volume brings together a set of key studies on the history of medieval Central Europe Bohemia Hungary Poland along with others specially commissioned for the book or translated and a new introduction This region was both an area of immigration and one of polities in expansion Such expansion included the settlement and exploitation of previously empty lands as well as rulers attempts to incorporate new territories under their rule although these attempts did not always succeed Often German immigration has been prioritized in scholarship and the medieval expansion of Central Europe has been equated with the expansion of Germans Debates then focused on the positive or negative contribution of Germans to local life and the consequences of their settlement This perspective however distorts our understanding of medieval processes On the one hand Central Europe was not a passive recipient of immigrants Local rulers and eventually nobles benefited from and encouraged immigration they played an active role On the other hand German immigration was not a unified movement and cannot be equated with a *drang nach osten* Finally not just Germans but also various Romance speaking and other immigrant groups settled in Central Europe This volume therefore seeks to present a more complex picture of medieval expansion in Central Europe

The Mongols and the Armenians (1220-1335) Bayarsaikhan Dashdondog, 2010-12-07 Covering more than one century this book describes the complex issues of Mongol Armenian political relations that involved many different ethnic groups in a vast geographical area stretching from China to the Mediterranean coast in the thirteenth and fourteenth centuries

Raiders, Rulers, and Traders David Chaffetz, 2024-07-30 An Economist Best Book of the Year A New York Times Book Review Editors Choice A thrilling trip through 2 000 years in the rise of empires Robert Sullivan New York Times Book Review A captivating history of civilization that reveals the central role of the horse in culture commerce and conquest No animal is so entangled in human history as the horse The thread starts in prehistory with a slight shy animal hunted for food Domesticating the horse allowed early humans to settle the vast Eurasian steppe later their horses enabled new forms of warfare encouraged long distance trade routes and ended up acquiring deep cultural and religious significance Over time horses came to power mighty empires in Iran Afghanistan China India and later Russia Genghis Khan and the thirteenth century Mongols offer the most famous example but from ancient Assyria and Persia to the seventeenth century Mughals to the high noon of colonialism in the early twentieth century horse breeding was indispensable to conquest and statecraft Scholar of Asian history David Chaffetz tells the story of how the horse made rulers raiders and traders interchangeable providing a novel explanation for the turbulent history of the Silk Road which might be better called the Horse Road Drawing on recent research in fields including genetics and forensic archeology Chaffetz presents a lively history of the great horse empires that shaped civilization

Imagology, 2007-01-01 How do national stereotypes emerge To which extent are they determined by historical or ideological circumstances or else by cultural

literary or discursive conventions This first inclusive critical compendium on national characterizations and national cultural or ethnic stereotypes contains 120 articles by 73 contributors Its three parts offer 1 a number of in depth survey articles on ethnic and national images in European literatures and cultures over many centuries 2 an encyclopedic survey of the stereotypes and characterizations traditionally ascribed to various ethnicities and nationalities and 3 a conspectus of relevant concepts in various cultural fields and scholarly disciplines The volume as a whole as well as each of the articles has extensive bibliographies for further critical reading Imagology is intended both for students and for senior scholars facilitating not only a first acquaintance with the historical development typology and poetics of national stereotypes but also a deepening of our understanding and analytical perspective by interdisciplinary and comparative contextualization and extensive cross referencing

Empires to be remembered Michael Gehler, Robert Rollinger, 2022-03-10 By applying a comparative approach the volume focuses on a select group of empires which are generally not in the focus of empire studies They are studied in detail and analyzed due to a strict concept that takes into account real history and reception history as well Reception history becomes more and more an important element in empire studies although this topic is still often more or less underdeveloped The volume singles out a series of such forgotten empires It aims to provide a methodologically clearly structured as well as a uniform and consistent approach It develops a general set of questions that help to compare and distinguish these entities This way the volume intends to examine and to illuminate empires that are generally ignored by modern scholarship

Crusading and Warfare in the Middle Ages Simon John, Nicholas Morton, 2016-04-22 This volume has been created by scholars from a range of disciplines who wish to show their appreciation for Professor John France and to celebrate his career and achievements For many decades Professor France's work has been instrumental in many of the advances made in the fields of crusader studies and medieval warfare He has published widely on these topics including major publications such as *Victory in the East A Military History of the First Crusade* 1994 and *Western Warfare in the Age of the Crusades* 1999 This present volume mirrors his interests offering studies upon both areas The fifteen essays cover a wide variety of topics spanning chronologically from the Carolingian period through to the early fourteenth century Some offer new insights upon long contested issues such as the question of whether a new form of cavalry was created by Charles Martel and his successors or the implications of the Mongol defeat at Ayn Jalut Others use innovative methodologies to unlock the potential of various types of source material including manuscript illuminations depicting warfare Templar graffiti German crusading songs and crusading charters Several of the articles open up new areas of debate connected to the history of crusading Malcolm Barber discusses why Christendom did not react decisively to the fall of Acre in 1291 Bernard Hamilton explores how the rising Frankish presence in the Eastern Mediterranean during the central medieval period reshaped Christendom's knowledge and understanding of the North African cultures they encountered In this way this work seeks both to advance debate in core areas whilst opening new vistas for future research
