*Shalom: God's Ultimate Purpose for the World* Dae-Young Lee, 2021-06-23 What is our preconception about Muslims Do we continue to practice medical missions in a way that is no longer considered an effective means of presenting the gospel to the unreached Is our gospel message biblically balanced and firmly contextualized in the context that we try to serve There are numerous questions that we may ask ourselves when we desire to share God's love with people who are still alienated from it Christian cross cultural missions should reconsider the strategies and attitudes that no longer reflect biblical principles This book brings a lot of insightful thoughts and suggestions from the author's medical ministry experience in the Arab world to those who want to reach out to the unreached The theology of shalom enables us to deeply understand God's ultimate purpose toward the world that he created and to devote our lives to bring people to his kingdom in the humble way that Jesus has presented throughout his life on earth when he was with us This book demonstrates how Christian medical missions can be manifested in a more biblical way and can serve people who have been physically injured and emotionally broken more effectively

For the Temporary Accommodation of Settlers David Monteyne, 2021-12-15 For immigrants making the transoceanic journey from Europe or Asia to North America the experience of a new country began when they disembarked In Canada the federal government built a network of buildings that provided newcomers with shelter services and state support Immigration sheds such as Pier 21 in Halifax where ocean liners would dock and global migrants arrived and were processed had many counterparts across the country new arrivals were accommodated or incarcerated at reception halls quarantine stations and immigrant detention hospitals For the Temporary Accommodation of Settlers reconstructs the experiences of people in these spaces both immigrants and government agents to pose a question at the heart of

architectural thinking how is meaning produced in the built environments that we encounter David Monteyne interprets official governmental intentions and policy goals embodied by the architecture of immigration but foregrounds the unofficial informal practices of people who negotiated these spaces to satisfy basic needs ensure the safety of their families learn about land and job opportunities and ultimately arrive at their destinations The extent of this Canadian network which peaked in the early twentieth century at over sixty different sites and the range of building types that comprised it are unique among immigrant receiving nations in this period In our era of pandemic quarantine and migrant detention facilities For the Temporary Accommodation of Settlers offers new ways of seeing and thinking about the historical processes of immigration challenging readers to consider government architecture and the experience of migrants across global networks
