Freedom's Progress? Gerard Casey,2021-10-04 In *Freedom's Progress* Gerard Casey argues that the progress of freedom has largely consisted in an intermittent and imperfect transition from tribalism to individualism from the primacy of the collective to the fragile centrality of the individual person and of freedom Such a transition is he argues neither automatic nor complete nor are relapses to tribalism impossible The reason for the fragility of freedom is simple the importance of individual freedom is simply not obvious to everyone Most people want security in this world not liberty Libertarians writes Max Eastman used to tell us that the love of freedom is the strongest of political motives but recent events have taught us the extravagance of this opinion The herd instinct and the yearning for paternal authority are often as strong Indeed the tendency of men to gang up under a leader and submit to his will is of all political traits the best attested by history The charm of the collective exercises a perennial magnetic attraction for the human spirit In the 20th century Fascism Bolshevism and National Socialism were Casey argues each of them a return to tribalism in one form or another and many aspects of our current Western welfare states continue to embody tribalist impulses Thinkers you would expect to feature in a history of political thought feature in this book Plato Aristotle Machiavelli Locke Mill and Marx but you will also find thinkers treated in *Freedom's Progress* who don't usually show up in standard accounts Johannes Althusius Immanuel Kant William Godwin Max Stirner Joseph Proudhon Mikhail Bakunin Pyotr Kropotkin Josiah Warren Benjamin Tucker and Auberon Herbert *Freedom's Progress* also contains discussions of the broader social and cultural contexts in which politics takes its place with chapters on slavery Christianity the universities cities Feudalism law kingship the Reformation the English Revolution and what Casey calls Twentieth Century Tribalisms Bolshevism Fascism and National Socialism and an extensive chapter on human prehistory

Forrest,2014-08-09 We are at a crucial point in time a moment of transition as important as the emergence of Homo sapiens or the beginning of civilisation after the Neolithic Revolution Paradoxically the triumph of the West also called globalisation means the death of Europe and European man Our destiny hangs between two options either to complete the triumph of the egalitarian conception of the world which will bring about the end of history or to promote a historical regeneration Nietzsche prophesied that the Earth will eventually belong to either the last man or to the superman There are no other alternatives **Roman Conquests: North Africa** Nic Fields,2011-01-26 The third in the Roman Conquests series will briefly cover Rome s first forays into the dark continent during the First and Second Punic Wars then cover in detail her vindictive final conquest and destruction of Carthage in the Third Punic War The subsequent long wars against the slippery Numidian prince Jugurtha which tested the Roman military system to the limit also occupy a central place With a cast of characters including Hannibal the Scipios Marius Sulla and the wily Jugurtha this is sure to be a popular addition to the series Like the other volumes this book gives a clear narrative of the course of these wars explaining how the Roman war machine coped with formidable new foes and the challenges of unfamiliar terrain and climate Specially commissioned color plates by Graham Sumner bring the main troop types vividly to life in meticulously researched detail **Boudica** Vanessa Collingridge,2007-06-26 An intelligent and infectiously enthusiastic biography of the Celtic queen and an analysis of her impact on British and feminist history The Sunday Times Boudica has been mythologized as the woman who dared to take on the Romans to avenge her daughters her tribe and her enslaved country Her immortality rests on the fact that she almost drove the Romans out of Britain and her legend has become the reference point for any British woman in power from Elizabeth I to Margaret Thatcher As Boudica has become well known as an icon of female leadership and strength the true story of her revolt against the Roman Empire has only become more distant until now Combining new research and recent archaeological discoveries Vanessa Collingridge has written a major new biography on this shadowy and often misunderstood figure of ancient history Boudica provides a detailed history of the Celtomania that has adopted Boudica as its earliest hero and the nationalist and feminist causes that have also tried to claim her as their own While tracking the origins and impact of the various versions of the Boudica legend Collingridge unearths a historical woman who is far subtler but every bit as fascinating as the myths associated with her name Deeply researched and powerfully explosive Saga Magazine A compelling tale Daily Mail **Church History** James E. Bradley ,Richard A. Muller,2016 In their acclaimed much used Church History James Bradley and Richard Muller lay out guidelines methods and basic reference tools for research and writing in the fields of church history and historical theology Over the years this book has helped countless students define their topics locate relevant source materials and write quality
