Negotiating Censorship in Modern Japan Rachael Hutchinson,2013-08-21 Censorship in Japan has seen many changes over the last 150 years and each successive system of rule has possessed its own censorship laws regulations and methods of enforcement Yet what has remained constant through these many upheavals has been the process of negotiation between censor and artist that can be seen across the cultural media of modern society By exploring censorship in a number of different Japanese art forms from popular music and kabuki performance through to fiction poetry and film across a range of historical periods this book provides a striking picture of the pervasiveness and strength of Japanese censorship across a range of media the similar tactics used by artists of different media to negotiate censorship boundaries and how censors from different systems and time periods face many of the same problems and questions in their work The essays in this collection highlight the complexities of the censorship process by investigating the responsibilities and choices of all four groups artists censors audience and ideologues in a wide range of case studies The contributors shift the focus away from top down suppression towards the more complex negotiations involved in the many stages of an artistic work all of which involve movement within boundaries as well as testing of those boundaries on the part of both artist and censor Taken together the essays in this book demonstrate that censorship at every stage involves an act of human judgment in a context determined by political economic and ideological factors This book and its case studies provide a fascinating insight into the dynamics of censorship and how these operate on both people and texts As such it will be of great interest to students and scholars interested in Japanese studies Japanese culture society and history and media studies more generally *Legacies and Ambiguities* Ernestine Schlant,J. Thomas Rimer,1991-10 The literary legacies of World War II have been mixed and varied

especially in West Germany and Japan where the burden of defeat has been expressed by novelists and intellectuals in strikingly different ways Reflecting the cultural differences between the two nations and the experiences of occupation and democratization that occurred after the war the postwar literatures of Germany and Japan intimately reveal the hopes and aspirations the dreams and the nightmares of two peoples confronting the harsh realities of war Using a comparative approach *Ambiguous Legacies* explores the conditions and values under which the postwar literatures of West Germany and Japan were created Specifically the book assesses the meaning of the German and Japanese literary responses to the World War II the tendencies of denial or silence by German writers the fatalism and passivity of Japanese novels and the importance of the past in defining the recent New subjectivism among German writers and the outpourings of the Introverted Generation by Japanese novelists Ernestine Schlant's introduction sets the context for the individual chapters and offers guideposts for further comparative scholarship The book also includes a useful annotated bibliography and suggestions for further reading The contributors are Arnulf Baring Carol Gluck Walter Hinderer Iremela Hijiya Kirschner Peter Demetz Marlene J Mayo J Victor Koschmann Judith Ryan Van C Gessel Dagmar Barnouw Kato Schuichi Oda Makoto and Peter Schneider *Soldiers*, 2000
