Sex, Breath, and Force Ellen Mortensen, 2006-01-01. Living in the post modern age, there is a growing sentiment of disenchantment in relation to the most facile aspects of dogmatic feminism. Nevertheless, the question of sexual difference still remains. *Sex, Breath, and Force* asks how we should approach such a questioning today, given the fall of the great narratives and the plethora of theoretical discourses in circulation. What are the conditions of possibility for thinking of sexual difference as a foundational problem in the age of technology? And how do the disciplines of social science, literary studies, philosophy, and film studies answer this challenge? This collection of essays provides a reassessment of the question of sexual difference, taking into account important shifts in feminist thought, post humanist theories, and queer studies. The contributors offer new and refreshing insights into the complex question of sexual difference from a post feminist perspective and how it is reformulated in various related areas of study, such as ontology, epistemology, metaphysics, biology, technology, and mass media.

Action Learning Wojciech W. Gasparski, 2017-11-30. Praxiology is the study of working and doing from the point of view of effectiveness. It has three components: analysis of concepts involving purposive actions; critique of modes of action from the viewpoint of efficiency; and normative advisory aspects in recommendations for increasing human efficacy. This sixth volume of the Praxiology series focuses on action learning. Learning from

distinguishable action is surprisingly different than learning from a subject expert in human or book form For those who have worked with and in action learning the latest form is always distinguishably different from a former experience Action learning programs are not in general intended to tackle puzzles namely questions to which an answer may be said to exist even if that answer is difficult to find action learning is intended to help to develop the ability to tackle problems or opportunities of which different persons all experienced intelligent and motivated might well advocate different courses of action all reasonable The essentials of action learning according to this volume are there can be no learning unless the participant receives feedback about his/her performance participants learn only of their own volition and never at the will of others the volition to learn is most readily engendered by the lure of success or by the fear of calamity Building upon these essentials the authors view action learning as a process of inquiry beginning with the experience of not knowing what to do next and finding that an answer is not available from current expertise All chapters in this volume are sound contributions to the continuing debate on the processes of learning from distinguishable action Action Learning is intriguing reading for sociologists philosophers managers and researchers of all disciplines

Carsi, the Refugee Planet Hassen Dichari,2014-02-27 Carsi The Refugee Planet is the first of the Carsian Trilogy by Hassen Dichari The book will be based off of five major concepts I have accumulated for seven years until completing in 2011 when I was 21 years old Christianity Lords the Rings book series accomplishments of England and Spain and my own personal battle with my eating disorder I briefly went through in 2004 2005 when this book first came into surface in my mind and Ufos that they are not extraterrestrials but Demons flying around in vehicles of deception and lies

There are five races of creatures that live in Galaxy Dichri called the Gatekeepers Glushers Fisheon Humans and Gulpers The Gatekeepers speak Felish Fisheon speak Fishi Gulpers speak Gulpish Glushers speak Glushi and the Humans speak Human According to Earths terms Felish is similar to Spanish Fishi to Arabic Gulpish to Chinese Glushi to Russian and Human to Swahili The books will be based off of many accomplishments organizations and beliefs that exist on planet Earth today and over the past 2 000 years Most of the books in the trilogy will be based on religion with the Gatish race called Gatekeepers being the savior of the creatures of Galaxy Dichri Sakim is the head fallen Gatekeeper and his followers other fallen Gatekeepers are called Mikplutons Originally named Lucius Sakim was the Emperor of Carsi 2 000 years ago He was cast out of Carsi by the Creator itself along with a third of the Gatish population for leaving the one and only faith of the Gatekeepers Moral Order Since then he has been preparing to release the ultimate lie to the four races of Galaxy Dichri Glushers Humans Fisheon and Gulpers The time has finally come for Sakim to return in physical form to deceive devour and destroy Human Fisheon Glusher and Gelper lives and souls with the ultimate lie The Creator so loves the Galaxy that it does not wish for its creation to suffer like this So from the beginning of time a race of divine kind was created to spread the word of Moral Order after Lucius and a third of the Gatish population of Gatekeepers were cast out of Carsi When the word of Moral Order would be heard in every country in Gateiniya and Sogyoni there would be more evil than ever before To bring an end to it the Creator would give permission to Sakim to return in physical form At the same time the Creator would allow the crucifixion of the Gatekeepers to begin so that the other four races would one day live on Carsi the Refugee Planet after this historic event instead of living in eternal damnation with Sakim on his spacecraft of doom **John Verse by Verse** Grant R.
