The Middle East In The World Economy 1801914:

Why the Middle East Lagged Behind Kazem Alamdari,2005-03-08 Capitalism was the engine of modern development in the West The land tenure system in the Middle East in contrast to the West was an obstacle to the development of capitalism In the West feudalism resulted in a capitalist mode of production and was driven by private ownership of land In Iran these fundamentals were absent Understanding this some Western developmentalists in an attempt to remove this obstacle rationalized a project of modernization that involved imposing capitalism from the top down Under this project developing countries under the influence of the West were advised to launch land reform programs that would modify the traditional and obsolete land systems The first part of this study explores the roots of this issue in Iran The second part of the book examines the period from 1961 when the land reform program began to 1981 when Iran saw the beginning of the Islamic system *Research Catalogue of the American Geographical Society: Regional numbers 36-40, Asia. Asia (General) ; Southwest Asia ; Soviet Central Asia ; Siberia ; Manchuria ; Korea ; Japan ; Formosa ; Sinkiang ; Mongolia ; Tibet* American Geographical Society of New York,1962 **The Middle East in the World Economy, 1800-1914** Roger Owen,1981 Examines the growth and transformation of the Middle East economy during the 19th and early 20th centuries The text looks at how the region s economic structures were fundamentally altered by the growing impact of European trade and finance and by the internal reforms of the rulers of Egypt It also examines in detail the impact of this process on the four central areas of the Middle East The result the author argues was the creation of a fixed pattern of agricultural industrial and financial activity The states formed after the collapse of teh Ottoman Empire found that altering this pattern in their attempts to promote a less dependent form of development was fraught with difficulty and the problems they faced and their different approaches are still highly relevant to the Middle East s economic development today **The Middle East in the World Economy. 1880-1914** Roger Owen,1981 **A Political Economy Of The Middle East** Alan Richards,John Waterbury,1996-09-12 This integrated analytic text presents a comprehensive analysis of the transformation of the political economy of the entire contemporary Middle East region over the past several decades As did the first edition this new edition extensively rewritten and revised stresses how different development strategies have contributed to the creation of powerful interests that now often block needed change The book also retains its focus on the interaction of economic development processes state systems and social actors The revisions not only include much new data and evidence but also take into account emerging issues such as youth unemployment impending water shortages the experience with structural adjustment pressures for democratization and the rise of political Islam The authors also give special attention to the impact of such recent international events as the collapse of the oil boom the end of the Cold War and Operation Desert Storm **An Economic History of the Middle East and North Africa** Charles Issawi,2005-11-03 First Published in 2005 Routledge is an imprint of Taylor Francis an informa company **Challenges of Growth and Globalization in the Middle East and**

(MENA) Joseph Pelzman, 2012-06-26 The Middle East and North Africa MENA is a large complex and diverse region which faces a wide range of economic issues The MENA group includes Algeria Bahrain Cyprus Djibouti Egypt Iran Iraq Israel Jordan Kuwait Lebanon Libya Morocco Oman Qatar Saudi Arabia Syria Tunisia Turkey United Arab Emirates and Yemen This book uses analytical tools drawn from the trade labor finance and development literature to critically analyze and compare these countries economic policies The approach taken in this book is to focus on the economic policies and institutional arrangements which have evolved in MENA and which may serve to explain the differences in each country's economic performance The key objective of the book is to unravel the context specific variety of growth promoting policies within MENA rather than focus on specific countries This book stresses that the poor performance of Arab MENA can be chiefly explained by their aversion to a Western paradigm of market economics In the advanced industrial countries and in Israel globalization is largely viewed in economic terms the free movement of goods services labor and capital across borders In the Arab MENA however globalization is viewed in largely ideological terms and has been regarded as a new version of imperialism Consequently the Arab MENA region remains one of the most un globalized regions in the world The book serves as both a textbook and a summary of the very large literature on MENA It examines the following economic realities of the region and compares them across the MENA economies Technology gap and comparative development The value of education and human capital development Water and food security The economics and politics of oil Population growth role of gender and labor mobility The role of the state as economic actor The economic value of democracy The prospects for regional integration *The Middle East* Barry Rubin, 2015-03-17 The Middle East is an area of great importance globally yet

misperceptions abound Events have made it a region of special interest to the West and so the search for understanding gains momentum This publication is intended to clarify the region's complex history and issues In developing this project the contributors set out to explore seven significant themes that are usually not found in other sources While many books focus on political history and conflicts this two volume work deals specifically with culture religion women economics governance and media as well as the role that the region's modern history has played in shaping its society and worldview Economic
