Świtalski,2014-05-30

Europe has been going through its most serious crisis of values since the fall of communism In public discourse economic and social pressures have overshadowed the other dimensions of the crisis including societal values However the crisis of values would appear to be more than simply an effect of the recession Europeans have lost trust in democratic institutions at all levels European national and local Rising xenophobia and discrimination against minorities undermine the vitality of the European model of tolerance Europe is plagued by endemic corruption which costs it more than 100 billion annually triggering political instability Some believe that once Europe is back on the path of growth the crisis of values will disappear and that there will be a resurgence of faith in European integration But in the long term growth in Western societies may be impaired by serious headwinds resulting from demographic trends and rising inequalities and Europe may become the first post growth society European societies are already changing their traditional characteristics as a result of exposure to the effects of two global mega trends the empowerment of the individual and cosmopolitisation Can the European project be of relevance when addressing these challenges What role in this process can be played by the Council of Europe which is the embodiment of the idea that Europe is bigger than the European Union and the European agenda is richer than the economy and politics **The Once and Future Wesleyan Movement** Bishop Scott J.

Jones,2016-11-15 Jones argues that several unique factors remain available to The United Methodist Church today from the period of rapid growth between 1800 and 1840 Drawing on the image of Loren Mead s Once and Future Church and Moises Naim s analysis in The End of Power Jones argues that a viable future for United Methodism is to recapture the dynamism of being a movement with many of the characteristics of early 19th century Methodism coming to the fore It will draw on three key works about Methodism in the first half of the 19th century Nathan Hatch s Democratization of American Christianity John Wigger s Taking Heaven by Storm and Gregory Schneider s The Way of the Cross Leads Home The book talks about how the Wesleyan form of church contains important resources for the future of Christianity It focuses on the United States and the first half is broadly applicable to all denominations in the Wesleyan tradition The last half of the book discusses obstacles that are currently preventing the United Methodist Church from achieving its potential It closes with a hopeful vision of what a renewed United Methodism might look like **The Contested Status of Political Elites** Lars

Vogel,Ronald Gebauer,Axel Salheiser,2018-07-17 Contemporary Western societies are witnessing ground breaking social economic and political changes at an accelerating pace These changes are challenging the way democracy works and the role that political elites play in this system of government Using a theoretical and empirical approach this volume argues that political elites are urged to develop new strategies in order to achieve interest aggregation to safeguard collective action and

to maintain elite autonomy and stability The adaptive capacities of political elites are assessed through case studies comparative and longitudinal analyses of their social structure their recruitment patterns and their attitudes The book includes contributions from reputable scholars in the field of elite research and specialists on individual political systems across Europe and the US It provides an analytical framework demonstrating that political elites are inevitable and potentially able to respond successfully to varying challenges The book will be of key interest to scholars and students of political elites democracy comparative politics political participation and European Politics
