The Routledge History of American Foodways Michael D. Wise, Jennifer Jensen Wallach, 2016-02-12 The Routledge History of American Foodways provides an important overview of the main themes surrounding the history of food in the Americas from the pre colonial era to the present day By broadly incorporating the latest food studies research the book explores the major

advances that have taken place in the past few decades in this crucial field. The volume is composed of four parts. The first part explores the significant developments in US food history in one of five time periods to situate the topical and thematic chapters to follow. The second part examines the key ingredients in the American diet throughout time, allowing authors to analyze many of these foods as items that originated in or dramatically impacted the Americas as a whole and not just the United States. The third part focuses on how these ingredients have been transformed into foods identified with the American diet and on how Americans have produced and presented these foods over the last four centuries. The final section explores how food practices are a means of embodying ideas about identity, showing how food choices, preferences, and stereotypes have been used to create and maintain ideas of difference. Including essays on all the key topics and issues, *The Routledge History of American Foodways* comprises work from a leading group of scholars and presents a comprehensive survey of the current state of the field. It will be essential reading for all those interested in the history of food in American culture.

The Reducetarian Solution Brian Kateman, 2017-04-18 Brian Kateman coined the term Reducetarian, a person who is deliberately reducing his or her consumption of meat, and a global movement was born. In this book, Kateman, the founder of the Reducetarian Foundation, presents more than 70 original essays from influential thinkers on how the simple act of cutting 10% or more of the meat from one's diet can transform the life of the reader, animals, and the planet. This book features contributions from such luminaries as Seth Godin, Joel Fuhrman, Victoria Moran, Jeffrey Sachs, Bill McKibben, Naomi Oreskes, Peter Singer, and others. With over 40 vegan, vegetarian, and less meat recipes from bestselling cookbook author Pat Crocker, as well as tons of practical tips for reducing the meat in your diet (for example, skip eating meat with dinner if you ate it with lunch; replace your favorite egg omelet with a tofu scramble; choose a veggie burrito instead of a beef burrito; declare a meatless day of the week), *The Reducetarian Solution* is a life not to mention planet-saving book.
