## **The Moot Papers:**

**The Moot Papers** Keith Clements, 2015-02-26 The Moot was the study and discussion group set by J H Oldham 1874 1969 following the 1937 Oxford conference on Church Community and State Its purpose was to continue in an informal but serious way exploration of the relation between church and society and the realization of Christian ethics in the public sphere The Moot met twice or three times a year from 1938 to 1947 21 times in all and was convened by Oldham with the conscious intention of responding to the grave crisis that was felt to be facing western society in Britain no less than on the continent of Europe Overall some 35 people attended the Moot at one time or another but its core comprised a small number of regular members who were representative of the highest levels in theology social science and public affairs In addition to Oldham himself they included T S Elliot H A Hodges Eleonora Iredale Adolf L we Karl Mannheim Walter Moberly John Middleton Murry and Alec Vidler Other participants included Kathleen Bliss Fred Clarke Christopher Dawson H H Farmer Hector Hetherington Walter Oakshott and Gilbert Shaw while notables such as Reinhold Niebuhr Melville Channing Pearce Donald McKinnon Philip Mairet Leslie Newbiggin William Paton Frank Pakenham later Lord Longford Michael Polanyi and Oliver Tomkins made occasional guest appearances Against the background of impending and then actual war the discussions in the Moot repeatedly focused on the planned nature of modern society and therewith the roles if any within it of moral choice and the Christian community **Catalogue of the Moot Papers** University of London. **The Modernist God State** Michael Lackey, 2012-03-22 The Modernist God State seeks to overturn the traditional secularization approach to intellectual and political history and to replace it with a fuller understanding of the religious basis of modernist political movements Lackey demonstrates that Christianity instead of fading after the Enlightenment actually increased its power by becoming embedded within the concept of what was considered the legitimate nation state thus determining the political agendas of prominent political leaders from King Leopold II to Hitler Lackey first argues that novelists can represent intellectual and political history in a way that no other intellectual can Specifically they can picture a subconscious ideology which often conflicts with consciously held systems of belief short circuiting straight into political action an idea articulated by E M Forster Second in contrast to many literary scholars who discuss Hitler and the Nazis without studying and quoting their texts Lackey draws his conclusions from close readings of their writings In doing so he shows that one cannot understand the Nazis without taking into account the specific version of Christianity underwriting their political agenda **The ^AYear of Our Lord 1943** Alan Jacobs, 2018-07-02 The Year of Our Lord 1943 tells the story of how five Christian intellectuals Jacques Maritain T S Eliot C S Lewis W H Auden and Simone Weil sought to provide a plan for the moral and spiritual renewal of the Western democracies in the post World War II world

history of the 19th and 20th centuries      **Modernism, Christianity and Apocalypse** ,2014-10-30 Modernism Christianity and Apocalypse stages an encounter between the fields of Modernism and Christianity and Apocalypse Studies The modernist impulse to make it new to transform and reform culture is an incipiently apocalyptic one poised between imaginative representations of an Old Era or civilization and the experimental promise of the New Christianity figures in formative tension with the new but its apocalyptic paradigms continued to impact modernist visions of cultural revitalization In three sections tracing a rough chronology from the late nineteenth century fin de siècle via interwar conflicts and the rise of political religions to post 1945 anxieties such as the Bomb this thematic is explored in nineteen far ranging scholarly contributions outlining a distinctive and fresh interdisciplinary field of study      **This is your hour** John Carter Wood,2019-05-02 In the 1930s and 1940s amid the crises of totalitarianism war and a perceived cultural collapse in the democratic West a high profile group of mostly Christian intellectuals met to map out middle ways through the age of extremes Led by the missionary and ecumenist Joseph H Oldham the group included prominent writers thinkers and activists such as T S Eliot John Middleton Murry Karl Mannheim John Baillie Alec Vidler H A Hodges Christopher Dawson Kathleen Bliss and Michael Polanyi The Oldham group saw faith as a uniquely powerful resource for social and cultural renewal and it represents a fascinating case study of efforts to renew freedom in a dramatic confrontation with totalitarianism The group s story will appeal to those interested in the cultural history of the Second World War and the issue of applying faith to the modern social order      **So What's New About Scholasticism?** Rajesh Heynicks,Stéphane Symons,2018-07-09 In So What s New about Scholasticism thirteen international scholars gauge the extraordinary impact of a religiously inspired conceptual framework in a modern society The essays that are brought together in this volume reveal that Neo Thomism became part of contingent social contexts and varying intellectual domains Rather than an ecclesiastic project of like minded believers Neo Thomism was put into place as a source of inspiration for various concepts of modernization and progress This volume reconstructs how Neo Thomism sought to resolve disparities annul contradictions and reconcile incongruent new developments It asks the question why Neo Thomist ideas and arguments were put into play and how they were transferred across various scientific disciplines and artistic media growing into one of the most influential master narratives of the twentieth century Edward Baring Dries Bosschaert James Chappel Adi Eyal Lautenschlager Rajesh Heynicks Sigrid Leyssen Christopher Morrissey Annette M Iberger Jaime Navarro Herman Paul Karim Schelkens Wim Weymans and John Carter Wood reconstruct a bewildering yet decipherable thought structure that has left a deep mark on twentieth century politics philosophy science and religion      **The History of Sociology in Britain** Plamena Panayotova,2019-07-09 For many years the history of British Sociology has been a neglected area of study among sociologists In more recent times there are signs of a growing curiosity among British sociologists about their subject s origins and development This collection sets out both to encourage and satisfy that curiosity while recognising the value of history as a teaching tool that can be used to inspire

young sociology students and furnish them with a deeper understanding of the development of British sociology The volume contains essays by distinguished sociologists and historians who discuss British sociology's controversial origins the neglected legacies of several individuals and institutions the history of how the discipline was taught in the UK throughout the twentieth century and its peculiar relationships with statistics and the humanities The History of Sociology in Britain reveals the distinct character of British sociology through the course of its historical evolution It is an original contribution and valuable addition to the field which intersects with historiography epistemology and literature

Education for Democracy in England in World War II Hsiao-Yuh Ku, 2020-04-07 Education for Democracy in England in World War II examines the educational discourse and involvement in wartime educational reforms of five important figures Fred Clarke R H Tawney Shena Simon H C Dent and Ernest Simon These figures campaigned for educational reforms through their books publishing articles in newspapers delivering speeches at schools and conferences and by organizing pressure groups Going beyond the literature in this key period the book focuses on exploring the relationship between democratic ideals and reform proposals in each figure's arguments Displaying a variety of democratic forums for debates about education beyond parliament the book reinterprets wartime educational reforms from a different perspective and illustrates the agreements and contradictions in the educational discourse itself

**Civil Society in British History** Jose Harris,2005-07-14 This book explores the many different strands in the language of civil society from the sixteenth to the twentieth centuries Through a series of case studies it investigates the applicability of the term to a wide range of historical settings These include state interference voluntary associations economic decision making social and economic planning the bourgeois public sphere civil society in wartime the inclusion and exclusion of women and relations between the state the voluntary sector and individual citizens The contributors suggest that the sharp distinction between civil society and the state common in much continental thought

was of only limited application in a British context They show how past understandings of the term were often very different from even in some respects the exact opposite of those held today arguing that it makes more sense to understand civil society as a phenomenon that varies between different cultures and periods rather than a universally applicable set of principles and procedures

**Christopher Dawson** Joseph T. Stuart, 2022-01-14 The English historian Christopher Dawson 1889 1970 was the first Catholic Studies professor at Harvard University and has been described as one of the foremost Catholic thinkers of modern times Joseph T Stuart argues that through Dawson's study of world cultures he acquired a cultural mind by which he attempted to integrate knowledge according to four implicit rules intellectual architecture boundary thinking intellectual asceticism and intellectual bridges Dawson responded to the cultural fragmentation after the Great War 1914 1918 through this multilayered approach to culture which was an instantiation of John Henry Newman's philosophical habit of mind Stuart demonstrates how Dawson formed his cultural mind practicing an interdisciplinary science of culture involving anthropology sociology history and comparative religion and applied his cultural thinking to problems in politics and education
