within Eastern and Western traditions By centering attention on this aspect the book highlights a critical concern for the development of AI that is suitable for the future of human relationships and good governance Specifically the book seeks to examine the influence of AI on essential human relationships such as those between parent and child spouses the elderly and the young physician and patient as well as relations between friends citizens and nations It is an essential resource relevant to academics in philosophy applied ethics and bioethics AI ethics social and political philosophy **The Real Planet of the Apes** David R.
