Inner Christianity Richard Smoley, 2002-10-08 An eye opening introduction to the complex world of esoteric Christianity perfect for the general reader This guide to mystical and esoteric Christianity speaks from a nonsectarian point of view unearthing insights from the whole of the Christian tradition orthodox and heretical famous and obscure The esoteric tradition has traditionally searched for meanings that would yield a deeper inner knowledge of the divine While traditional Christianity draws a timeline from Adam s Fall to the Day of Judgment the esoteric often sees time as folding in on itself bringing every point to the here and now While the Church fought bitterly over dogma the esoteric borrowed freely from other traditions Kabbalah astrology and alchemy in their search for metaphors of inner truth Rather than basing his book around exponents of esoteric doctrine scholar Richard Smoley concentrates on the questions that are of interest to every searching Christian How can one attain direct spiritual experience What does the Fall really tell us about coming to terms with the world we live in Can we find salvation in everyday life How can we ascend spiritually through the various levels of existence What was Christ s true message to humankind From the Gospel of Thomas to A Course in Miracles from the Jesus Prayer to alchemy and Tarot from Origen to Dante to Jung Richard Smoley sheds the light of an alternative Christianity on these issues and more

Christian Register and Boston Observer, 1929

The God Who Saves David W. Congdon, 2016-09-08 Christian universalism has been explored in its biblical philosophical and historical dimensions For the

first time *The God Who Saves* explores it in systematic theological perspective. In doing so it also offers a fresh take on universal salvation one that is postmetaphysical, existential, and hermeneutically critical. The result is a constructive account of soteriology that does justice to both the universal scope of divine grace and the historicity of human existence. In *The God Who Saves*, David W. Congdon orients theology systematically around the New Testament witness to the apocalyptic inbreaking of God's reign. The result is a consistently soteriocentric theology. Building on the insights of Rudolf Bultmann, Ernst Kasemann, Eberhard Jungel, and J. Louis Martyn, he interprets the saving act of God as the eschatological event that crucifies the old cosmos. In Christ, human beings participate in salvation through their unconscious existential cocrucifixion in which each person is interrupted by God and placed outside of himself or herself. Both academically rigorous and pastorally sensitive, *The God Who Saves* opens up new possibilities for understanding not only what salvation is but also who the God who brings about our salvation is. Here is an interdisciplinary exercise in dogmatic theology for the twenty-first century.
