Di Leo, 2020-11-26 What does it mean to consider philosophy as a species of not just literature but world literature The authors in this collection explore philosophy through the lens of the worlding of literature that is how philosophy is connected and reconnected through global literary networks that cross borders mix stories and speak in translation and dialect Historically much of the world s most influential philosophy from Plato s dialogues and Augustine s confessions to Nietzsche s aphorisms and Sartre s plays was a form of literature as well as by extension a form of world literature Philosophy as World Literature offers a variety of accounts of how the worlding of literature problematizes the national categorizing of philosophy and brings new meanings and challenges to the discussion of intersections between

philosophy and literature **On Anthologies** Jeffrey R. Di Leo, 2004-01-01 Over the course of the past twenty five years anthologies have shifted from playing a relatively minor role in academic culture to a position of dominance The essays in this collection explore the significant intellectual economic political pedagogical and creative resonance of anthologies through all levels of academic life They show that anthologies have consequences and are grounded in commitments Striving to articulate these consequences and commitments is a priority in higher education today Most of the contributors to this volume are editors of anthologies and they draw on personal experiences to provide a rare glimpse into the economics and logic of anthology publication Their essays illustrate the ways in which editing an anthology involves negotiation and compromise between intellectual ideal and realistic practice On Anthologies includes discussion of a wide range of anthologies used and produced by teachers and scholars Though the emphasis is on literature and theory anthologies the insights in this volume speak to professionals in all areas of academic life Collectively these essays establish the foundation for continuing critical analysis of anthology production and consumption in all disciplines **World Literature Decentered** Ian Almond, 2021-07-13 What would world literature look like if we stopped referring to the West Starting with the provocative premise that the West is ten percent of the planet World Literature Decentered is the first book to decenter Eurocentric discourses of global literature and global history not just by deconstructing or historicizing them but by actively providing an alternative Looking at a series of themes across three literatures Mexico Turkey and Bengal the book examines hotels melancholy orientalism femicide and the ghost story in a series of literary traditions outside the West The non West the book argues is no fringe group or token minority in need of attention on the contrary it constitutes the overwhelming majority of this world **The Norton Anthology of World Literature** Sarah N. Lawall, 2001-05 Leading the field once again Norton is proud to publish the anthology for the new century The Norton Anthology of World Literature Second Edition Now published in six paperback volumes packaged in two attractive slipcases the new anthology boasts slimmer volumes thicker paper a bolder typeface and dozens of newly included or newly translated works from around the world The Norton Anthology of World Literature represents continuity as well as change Like its predecessor the anthology is a compact library of world literature offering an astounding forty three complete longer works more than fifty prose works over one hundred lyric poems and twenty three plays More portable more suitable for period courses more pleasant to read and more attuned to current teaching and research trends The Norton Anthology of World Literature remains the most authoritative comprehensive and teachable anthology for the world literature survey *Traditional Chinese Fiction in the English-Speaking World* Junjie Luo, 2022-08-16 This book develops interdisciplinary and comparative approaches to analyzing the cross cultural travels of traditional Chinese fiction It ties this genre to issues such as translation world literature digital humanities book culture and images of China Each chapter offers a case study of the historical and cultural conditions under which traditional Chinese fiction has traveled to the English speaking world proposing a critical lens that can be used to

Classical

World Literatures Wiebke Denecke, 2014 Ever since Karl Jaspers's axial age paradigm there have been a number of influential studies comparing ancient East Asian and Greco Roman history and culture However to date there has been no comparative study involving multiple literary traditions in these cultural spheres This book compares the dynamics between the younger literary cultures of Japan and Rome and the literatures of their venerable predecessors China and Greece How were writers of the younger cultures of Rome and Japan affected by the presence of an older reference culture whose sophistication they admired even as they anxiously strove to assert their own distinctive identity How did they tackle the challenge of adopting the reference culture's literary genres rhetorical refinement and conceptual vocabulary for writing texts in different languages and within distinct political and cultural contexts Classical World Literatures captures the striking similarities between the ways early Japanese authors wrote their own literature through and against the literary precedents of China and the ways Latin writers engaged and contested Greek precedents But it also brings to light suggestive divergences that are rooted in geopolitical linguistic sociohistorical and aesthetic differences between early Japanese and Roman literary cultures Proposing a methodology of deep comparison for the cross cultural comparison of premodern literary cultures and calling for an expansion of world literature debates into the ancient and medieval worlds Classical World Literatures is both a theoretical intervention and an invitation to read and re read four major literary traditions in an innovative and illuminating light *The Routledge Companion to World Literature* Theo D'haen, David

Damrosch, Djelal Kadir, 2011-09-14 In the age of globalization the category of World Literature is increasingly important to academic teaching and research The Routledge Companion to World Literature offers a comprehensive pathway into this burgeoning and popular field Separated into four key sections the volume covers the history of World Literature through significant writers and theorists from Goethe to Said Casanova and Moretti the disciplinary relationship of World Literature to areas such as philology translation globalization and diaspora studies theoretical issues in World Literature including gender politics and ethics a global perspective on the politics of World Literature The forty eight outstanding contributors to this companion offer an ideal introduction to those approaching the field for the first time or looking to further their knowledge of this extensive field **The Norton Anthology of World Literature** Martin Puchner, Suzanne Conklin

Two early pieces, an essay by Charles Dickens and a poem by Christina Rossetti, take a satirical look at children's literature. The nine new recent essays are by James R. Kincaid, Marah Gubar, Robert M. Polemus, Jean Jacques Lecercle, Gilles Deleuze, Roger Taylor, Carol Mavor, Jean Gattano, and Helena M. Pycior. The Selected Bibliography has been updated and expanded.

Narrative Truthiness Annjeanette Wiese, 2021-10. Narrative Truthiness explores the complex nature of truth by adapting Stephen Colbert's concept of truthiness, which on its own repudiates complexity into something nuanced and positive. What Annjeanette Wiese calls narrative truthiness, Narrative truthiness holds on to the importance of facts while complicating them by looking at different types of truth as well as the complexity, contradictions, and consequences of truth in the context of human experience. Wiese uses narrative theory to analyze several examples of hybrid non-fiction works that refuse to exist as either fiction or nonfiction alone and that challenge monolithic definitions of truth. She examines memoirs by Lauren Slater, Michael Ondaatje, Benjamin Wilkomirski, Tim O'Brien, fiction by Julian Barnes, Richard Powers, W.G. Sebald, Onion headlines, comics, and graphic memoirs by Joe Sacco, Art Spiegelman, and David Small, and fake news. Narrative Truthiness foregrounds the complexity that is inherent in human understanding and experience and in the process demonstrates the significance of the complex tensions between what we feel to be true and what is true and how we are shaped by both.
