NEW CHOICES that quickly drain our energy

01 UTILITIES

Before there were monopolies, now the model is "figure it out for yourself".

02 RETIREMENT

Company pension plans are nonexistent, so how are we supposed to know the best option for retirement planning?

03 HEALTH

Can you think of anyone who understands what their insurance covers? No? Then how do you pick the right one?

04 MEDICAL

When offered the choice, would you rather have the doctor (the expert) decide your treatment plan or you?

05 BEAUTY

"Beauty used to be a gift bestowed on the few. Today, it's an achievement, and homeliness is a failure."

06 WORK

Job mobility is part of the American dream, but with an infinite amount of options, isn't it more of a nightmare?

07 LOVE

Relationships are about "choosing battles" but couples face so many choices about how to love that it all just feels like a battle.

08 PRAYER

87% of Americans consider religion important, and now they get to become religion shoppers to find the flavor they like most.

09 WHO TO BE

Choosing your identity is nearly impossible when confronted with all of the creative options.

WHY WE SUFFER from the overload of options

Choice and happiness

Freedom and autonomy are critical to our well-being, and choice is critical to that. Nonetheless, though modern Americans have more choice than any group of people ever has before, we don't seem to be benefitting from it psychologically.

Problem of adaptation

Because of adaptation (the process of getting used to something and taking it for granted), enthusiasm about positive experiences doesn't sustain itself. This waning of pleasure or enjoyment over time always seems to come as an unpleasant surprise.

Missed opportunities

Part of the downside of abundant choice is that each new option adds to the list of trade-offs, and those have psychological consequences. The necessity of making trade-offs affects the level of satisfaction we experience from the decisions we make.

Everything suffers from comparison

When you are evaluating an experience, you compare it to your expectations. The circumstances of modern life seem to be conspiring to make experiences less satisfying than they could be in part because of the richness against which we are comparing them. Again, an overload of choices contributes to this dissatisfaction.

The Paradox Of Choice:

The Paradox of Choice Barry Schwartz, 2009-10-13 Whether we're buying a pair of jeans, ordering a cup of coffee, selecting a long distance carrier, applying to college, choosing a doctor, or setting up a 401 k, everyday decisions both big and small have become increasingly complex due to the overwhelming abundance of choice with which we are presented. As Americans, we assume that more choice means better options and greater satisfaction. But beware of excessive choice: choice overload can make you question the decisions you make before you even make them; it can set you up for unrealistically high expectations and it can make you blame yourself for any and all failures. In the long run, this can lead to decision making paralysis, anxiety, and perpetual stress. And in a culture that tells us that there is no excuse for falling short of perfection when your options are limitless, too much choice can lead to clinical depression. In *The Paradox of Choice*, Barry Schwartz explains at what point choice, the hallmark of individual freedom and self-determination that we so cherish, becomes detrimental to our psychological and emotional well-being. In accessible, engaging, and anecdotal prose, Schwartz shows how the dramatic explosion in choice, from the mundane to the profound challenges of balancing career, family, and individual needs, has paradoxically become a problem instead of a solution. Schwartz also shows how our obsession with choice encourages us to seek that which makes us feel worse. By synthesizing current research in the social sciences, Schwartz makes the counter-intuitive case that eliminating choices can greatly reduce the stress, anxiety, and busyness of our lives. He offers eleven practical steps on how to limit choices to a manageable number, have the discipline to focus on those that are important, and ignore the rest, and ultimately derive greater satisfaction from the choices you have to make.
