The Transformation of Vernacular Expression in Early Modern Arts Joost Keizer, Todd Richardson, 2011-10-14 Including contributions by historians of early modern European art architecture and literature this book examines the transformative force of the vernacular over time and different regions as well as the way the concept of the vernacular itself changes in the period

Figures of the Imagination Roger Hansford, 2017-03-16 This new study of the intersection of romance novels with vocal music records a society on the cusp of modernisation with a printing industry emerging to serve people's growing appetites for entertainment amidst their changing views of religion and the occult No mere diversion fiction was integral to musical culture and together both art forms reveal key intellectual currents that circulated in the early nineteenth century British home and were shared by many consumers Roger Hansford explores relationships between music produced in the early 1800s for domestic consumption and the fictional genre of romance offering a new view of romanticism in British print culture He surveys romance novels by Ann Radcliffe Matthew Lewis Sir Walter Scott James Hogg Edward Bulwer and Charles Kingsley in the period 1790 1850 interrogating the ways that music served to create mood and atmosphere enlivened social scenes and contributed to plot developments He explores the connections between musical scenes in romance fiction and the domestic song literature treating both types of source and their intersection as examples of material culture Hansford's intersectional reading revolves around a series of imaginative figures including the minstrel fairies mermaids ghosts and witches and Christians engaged both in virtue and vice the identities of which remained consistent as influence passed between the art forms While romance authors quoted song lyrics and included musical descriptions and characters their novels recorded and modelled the performance of songs by the middle and upper classes influencing the work of composers and the actions of performers who read romance fiction

Why Love Hurts Eva Illouz, 2013-05-20 Few of us have been spared the agonies of intimate relationships They come in many shapes loving a man or a woman who will not commit to us being heartbroken when we're abandoned by a lover engaging in Sisyphean internet searches coming back lonely from bars parties or blind dates feeling bored in a relationship that is so much less than we had envisaged these are only some of the ways in which the search for love is a difficult and often painful experience Despite the widespread and almost collective character of these experiences our culture insists they are the result of faulty or insufficiently mature psyches For many the Freudian idea that the family designs the pattern of an individual's erotic career has been the main explanation for why and how we fail to find or sustain love Psychoanalysis and popular psychology have succeeded spectacularly in convincing us that individuals bear responsibility for the misery of their romantic and erotic lives The purpose of this book is to change our way of thinking about what is wrong in

modern relationships The problem is not dysfunctional childhoods or insufficiently self aware psyches but rather the institutional forces shaping how we love The argument of this book is that the modern romantic experience is shaped by a fundamental transformation in the ecology and architecture of romantic choice The samples from which men and women choose a partner the modes of evaluating prospective partners the very importance of choice and autonomy and what people imagine to be the spectrum of their choices all these aspects of choice have transformed the very core of the will how we want a partner the sense of worth bestowed by relationships and the organization of desire This book does to love what Marx did to commodities it shows that it is shaped by social relations and institutions and that it circulates in a marketplace of unequal actors The Academy and Literature ,1902 *Art and Love in Renaissance Italy* Metropolitan Museum of Art (New York, N.Y.),Kimbell Art Museum,2008 Many famous artworks of the Italian Renaissance were made to celebrate love marriage and family They were the pinnacles of a tradition dating from early in the era of commemorating betrothals marriages and the birth of children by commissioning extraordinary objects maiolica glassware jewels textiles paintings that were often also exchanged as gifts This volume is the first comprehensive survey of artworks arising from Renaissance rituals of love and marriage and makes a major contribution to our understanding of Renaissance art in its broader cultural context The impressive range of works gathered in these pages extends from birth trays painted in the early fifteenth century to large canvases on mythological themes that Titian painted in the mid 1500s Each work of art would have been recognized by contemporary viewers for its prescribed function within the private domestic domain

Bloomsbury Introduction to Popular Fiction Christine Berberich,2014-12-18 Guiding readers through key writers and genres historical contexts and major theoretical approaches this is a comprehensive introduction to the study of popular fiction Charting the rise of commercial fiction from the 19th century to today The Bloomsbury Introduction to Popular Fiction includes introductory surveys written by leading scholars to a wide range of popular genres including Science Fiction Crime Writing Romance and Chick Lit Adventure Stories and Lad Lit Horror Graphic Novels Children s Literature Part II of the book also includes case study readings of key writers and texts from the work of HG Wells Ian Fleming and Raymond Chandler to more recent books such as *Pride and Prejudice* and *Zombies* The book also includes a chapter covering The Writer s Perspective on popular publishing while annotated guides to further reading and online resources throughout give students the tools they need to pursue independent study on their courses *Virginia Woolf's Unwritten Histories* Anne Besnault,2021-11-04 Virginia Woolf s *Unwritten Histories* explores the interrelatedness of Woolf s modernism feminism and her understanding of history as a site of knowledge and a writing practice that enabled her to negotiate her heritage to find her place among the moderns as a female artist and intellectual and to elaborate her poetics of the new not as radical rupture but as the result of a process of unwriting and rewriting traditional historiographical orthodoxies Its central

argument is that unless we comprehend the genealogy of Woolf's historical thought and the complexity of its lineage we cannot fully grasp the innovative thrust of her attempt to think back through our mothers. Bringing together canonical texts such as *Orlando* 1928, *A Room of One's Own* 1929, *Three Guineas* 1938 or *Between the Acts* 1941 and under researched ones among which stand Woolf's essays on historians and reviews of history books and her pieces on literary history and nineteenth century women's literature this book argues that Woolf's textual conversations with nineteenth century writers, historians and critics many of which remain unexplored are interwoven with her historiographical poesis and constitute the groundwork for her alternative histories and literary histories: unwritten, open textured, unacademic and polemical counter narratives that keep track of the past and engage politically with the future.
