The Message of the Stars Max Heindel, 2017-11-24 Excerpt from *The Message of the Stars* An Esoteric Exposition of Medical and Natal Astrology Explaining the Arts of Prediction and Diagnosis of Disease From this teaching it is apparent that the great spiritual hierarchies which are now guiding our evolution have had their training for this path in previous schemes of manifestation also that what they are now doing we shall some day do for others Already the foremost among our race are treading the path of initiation and have thereby advanced into other stages far beyond the general status of present humanity It has been learned that those who have gone through the Mercurial School of the lesser Mysteries and have graduated from the School of the Greater Mysteries are now preparing human evolution in the Jupiter Period They have entered the planet Jupiter by way of one of the Moons which serves as a stepping stone Others there are unfortunately who have gone the other way We read in the Rosicrucian cosmological conception that even as the whole population of the earth were at one time expelled from the present Sun because of their inability to keep up with the vibrations of the beings thereon thus

hindering them and being hindered themselves so also it became necessary in the Lemurian Epoch to expel a number of the stragglers upon earth Thus the Moon was cast out into Space to revolve as a Satellite around our present planet About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

It is a matter of common knowledge among mystics that the evolutionary career of mankind is indissolubly bound up with the divine hierarchies who rule the planets and the signs of the Zodiac and that the passage of the Sun and the planets through the twelve signs of the Zodiac marks man's progress in time and in space Therefore it is not to be wondered at that in the course of their investigations into the spiritual development of mankind the writers have also encountered much that deals with the Zodiac which is the boundary of our evolutionary sphere at the present time So much has been perceived in the memory of nature that sheds light upon obscure passages of the Bible that notes have been made from time to time of different points but how to collect and collate these dissociated writings into a united whole has been a great problem for a long time Even now the writers know and feel that what they are bringing forth is only a very very weak attempt to set before the students that great body of facts which have come to them through the memory of nature They feel however that this will give a 3 4 THE MESSAGE OF THE STARS new and more profound meaning to the old symbols and that by passing on what has been found they put themselves in line to receive more light Concerning the future evolution of planets The Rosicrucian Cosmo-Conception teaches on page 256 that when the beings upon the planet have evolved to a sufficient degree the planet becomes a Sun the fixed center of the Solar System When the beings there have evolved to a still greater degree and consequently it has reached its maximum of brilliancy it breaks up into a Zodiac and becomes so to speak the womb of a new Solar System Thus the Great hosts of Divine beings who until then were confined upon that Sun gain freedom of action upon a great number of stars whence they can affect in different ways the system which grows up within their sphere of influence The planets or man-bearing worlds within the Zodiac are constantly being worked upon by these forces but in various ways according to the stage they have reached in evolution Our Sun could not have become a sun until it set out from itself all the beings who were not sufficiently evolved to endure the high rate of vibration and the great luminosity of the beings who were qualified for that evolution All the beings upon the different planets would have been

consumed had they remained in the Sun This visible Sun however though it is a place of evolution for beings vastly above man is not by any means the Father of the other planets as EVOLUTION AS SHOWN IN THE ZODIAC 5 material science supposes On the contrary it is itself an emanation from the central Sun which is the invisible source of all that IS in our solar system *The Message of the Stars.
