Kirschenbaum, 2016-05-02 Writing in the digital age has been as messy as the inky rags in Gutenberg's shop or the molten lead of a Linotype machine Matthew Kirschenbaum examines how creative authorship came to coexist with the computer revolution Who were the early adopters and what made others anxious Was word processing just a better typewriter or something more *Contention* VandalAxis, 2018-07-15 Let's face it Humanity is a complete mess Climate change nuclear weapon threats terrorism big bad business and corrupted officials We'd rather build gigantic religious monuments than take care of the poor or downtrodden Clean needles are free in methadone clinics because addiction is a disease but diabetic supplies are big business The healthcare industry decides who lives and dies by how much money a person has When things get this bad all you can do is keep fighting *The File* Henry Disston & Sons, Inc. Clarke became the world's most famous science fiction writer after the success of 2001 A Space Odyssey He then produced novels like Rendezvous with Rama and The Fountains of Paradise that many regard as his finest works Gary Westfahl closely examines Clarke's remarkable career ranging from his forgotten juvenilia to the passages he completed for a final novel The Last Theorem As Westfahl explains Clarke's science fiction offered original perspectives on subjects like new inventions space travel humanity's destiny alien encounters the undersea world and religion While not inclined to mysticism

Clarke necessarily employed mystical language to describe the fantastic achievements of advanced aliens and future humans Westfahl also contradicts the common perception that Clarke s characters were bland and underdeveloped arguing that these reticent solitary individuals who avoid conventional relationships represent his most significant prediction of the future as they embody the increasingly common lifestyle of people in the twenty first century [The Emulation User's Guide](#)
