The Afghan-Central Asia Borderland Suzanne Levi-Sanchez, 2016-07-15 Based on extensive long term fieldwork in the borderlands of Afghan and Tajik Badakhshan this book explores the importance of local leaders and local identity groups for the stability of a state s borders and ultimately for the stability of the state itself It shows how the implantation of formal institutional structures at the border a process supported by United Nations and other international bodies can be counterproductive in that it may marginalise local leaders and alienate the local population thereby increasing overall instability The study considers how in this particular borderland where trafficking of illegal drugs weapons and people is rampant corrupt customs and border personnel and imperfect new institutional arrangements contributed to a complex mix of oppression hidden protest and subtle resistance which benefitted illicit traders and hindered much needed humanitarian work The book relates developments in this region to borderlands elsewhere especially new borders in the former Soviet bloc and argues that local leaders and organisations should be given semi autonomy in co ordination with state border forces in order to increase stability and the acceptance of the state

Children, Place and Identity Jonathan Scourfield, Bella Dicks, Mark Drakeford, Andrew Davies, 2006-09-27. In this, the first sociology book to consider the important issue of how children identify with place and nation, the authors use original research and international case studies to explore this topic in depth. The book is rooted in original qualitative research the authors conducted with a diverse sample of children aged eight to eleven across Wales, but this data is also located in the context of existing international research on place identity. The book features analysis of lively exchanges between children on their local, national, and global identities, politics, language, and race. It engages with important social and political questions such as whether cultural distinctiveness can be preserved in a context of globalization, whether we are destined to passively receive dominant representations of the nation, or can creatively construct our own versions, and whether national identities are necessarily exclusive. Most importantly, the book focuses on what local and national identities mean to children in an era of cultural and economic globalization. Including material on racialization, language, politics, class, and gender, *Children, Place and Identity* will be a valuable resource to students and researchers of childhood studies and the sociology of childhood.

The Bible in Culture Larry W. Caldwell, 2025-07-08. *How to Read and Interpret Scripture Across Cultures*. How can believers across cultures faithfully read and apply Scripture in a way that honors both the biblical text and their unique cultural contexts? In *The Bible in Culture*, Larry Caldwell introduces ethnohermeneutics, a revolutionary yet biblical approach to reading Scripture with rather than for the world. Drawing from decades of experience living overseas, Caldwell demonstrates that every culture has its own tools for understanding meaning and shows how God uses these to communicate the truth of his word. This approach is rooted in observing how Jesus, Paul, and others in the early church interpreted Scripture and in following their examples. Through real-life illustrations, interactive activities, and case studies, readers will discover how they can also read and interpret God's word in their own cultures. This book will challenge your assumptions about the interpretive task, encouraging and equipping you to rethink how the Bible can be understood across every people group in various cross-cultural, multicultural, and multigenerational contexts.

Informers Roger Billingsley, Teresa Nemitz, Philip Bean, 2013-01-11. The police rely heavily on paid and unpaid informers; without them, clear-up rates would plummet and many crimes would remain undetected. Yet little is known about the informer system and how it works: for example, who are these informers, how are they recruited, how are they handled, who handles them, what sort of information do they provide? Recent high-profile cases have drawn attention to the use of informers; there has been a growing debate about the subject, and many feel that stricter controls are needed, but how is this to be achieved without undermining the
