

THE OXFORD HANDBOOK OF  
**CRIMINOLOGY**

LIEBLING | MARUNA | McARA

SIXTH  
EDITION

# The Oxford Handbook Of Criminology

**Markus D Dubber, Tatjana Hörnle**

## **The Oxford Handbook Of Criminology:**

**The Oxford Handbook of Criminology** Mike Maguire, Rodney Morgan, Robert Reiner, 2007 teachers and students of criminology and is a sourcebook for professionals     [The Oxford Handbook of Criminology](#) Alison Liebling, Shadd Maruna, Lesley McAra, 2017 Beginning with the history of criminology this updated and revised edition deals with topics as diverse as policing substance abuse juvenile crime statistics prisons victims and organised crime in Britain     **The Oxford Handbook of Crime and Criminal Justice** Michael Tonry, 2011-09-07 Although criminal justice systems in developed Western countries are much alike in form structure and function the American system is unique While it is structurally similar to those of other Western countries the punishments it imposes are often vastly harsher No other Western country retains capital punishment or regularly employs life without parole three strikes or lengthy mandatory minimum sentencing laws As a result the U S imprisonment rate of nearly 800 per 100 000 residents dwarfs rates elsewhere The Oxford Handbook of Crime and Criminal Justice is an essential guide to the development and operation of the American criminal justice system A leading scholar in the field and an experienced editor Michael Tonry has brought together a team of first rate scholars to provide an authoritative and comprehensive overview and introduction to this crucial institution Expertly organized the various sections of the Handbook explore the American criminal justice system from a variety of perspectives including its purposes functions problems and priorities and present analyses of police and policing juvenile justice prosecution and sentencing and community and institutional corrections making it a complete and unrivaled portrait of how America approaches crime and criminal justice and giving persuasive answers as to why and how it has developed to what it is today Accessibly written for a wide audience the Handbook serves as a definitive reference for scholars and a broad survey for students in criminology and criminal justice     [The Oxford Handbook of Criminology](#) Mike Maguire, Rod Morgan, Robert Reiner, 1995     **The ^AOxford Handbook of the History of Crime and Criminal Justice** Paul Knepper, Anja Johansen, 2016-04-15 The Oxford Handbook of the History of Crime and Criminal Justice provides a systematic and comprehensive examination of recent developments across criminology and criminal justice Chapters examine methodological and theoretical approaches to criminology on going debates and controversies and contemporary issues such as drug trafficking terrorism and the intersections of gender race and class in the context of crime and punishment     *The Oxford Handbook of Crime Prevention* Brandon C. Welsh, David P. Farrington, 2012-02-24 How can a society prevent not deter not punish but prevent crime Criminal justice prevention commonly called crime control aims to prevent crime after an initial offence has been committed through anything from an arrest to a death penalty sentence These traditional means have been frequently examined and their efficacy just as frequently questioned Promising new forms of crime prevention have emerged and expanded as important components of an overall strategy to reduce crime Crime prevention today has developed along three lines interventions to improve the life chances of children and prevent them from embarking on a life

of crime programs and policies designed to ameliorate the social conditions and institutions that influence offending and the modification or manipulation of the physical environment products or systems to reduce everyday opportunities for crime Each strategy aims at preventing crime or criminal offending in the first instance before the act has been committed Each importantly takes place outside of the formal criminal justice system representing an alternative perhaps even socially progressive way to reduce crime The Oxford Handbook of Crime Prevention is a comprehensive up to date and authoritative review of research on crime prevention Bringing together top scholars in criminology public policy psychology and sociology this Handbook includes critical reviews of the main theories that form the basis of crime prevention evidence based assessments of the effectiveness of the most important interventions and cross cutting essays that examine implementation evaluation methodology and public policy Covering the three major crime prevention strategies active today developmental community and situational this definitive volume addresses seriously and critically the ways in which the United States and the Western world have attempted and should continue to strive for the of crime     *The ^AOxford Handbook of Crime and Public Policy* Michael Tonry,2009-04-22 Using a fresh approach this Oxford Handbook offers a comprehensive examination of crimes as public policy subjects to provide an authoritative overview of current knowledge about the nature scale and effects of diverse forms of criminal behavior and of efforts to prevent and control them Michael Tonry a leading authority on criminology has brought together twenty four of the most distinguished active scholars in the field to present a wide ranging overview and analysis of violent crimes property crimes crimes against morality transactional crimes and transnational crimes Straightforward and accessible individual chapters cover traditional topics such as firearms violence financial crimes and organized crime as well as emerging subjects like terrorism crimes against humanity and internet child pornography

**The Oxford Handbook of Criminological Theory** Francis T. Cullen,Pamela Wilcox,2013-02-01 Criminological theory texts typically follow a conventional format Diverse writings are neatly packaged into schools of thought which are given clear labels and conveyed a chapter at a time with topics like control theory in one chapter and strain theory in another The Oxford Handbook of Criminological Theory takes a different approach across the criminological landscape The volume is organized not around schools of thought but around themes that shape much thinking about and research on crime This more unconventional approach seeks to show that criminological theory is not static but dynamic In fact most prominent scholars do not spend their time commenting upon and retesting theoretical propositions that have existed for many years Rather they move into more novel areas areas often located in the interstitial junctures between more traditional theories This Oxford Handbook presents a series of essays that captures not the past of criminology but where theoretical explanation is headed As a result the volume is replete with new ideas discussions of substantive topics with salient theoretical implications and reviews and interpretations of literatures that illuminate promising avenues along which theory and research should evolve Special attention is paid to how criminal participation is shaped intimately by individual traits diverse

social contexts the situations in which the choice of crime is made and exposure to coercive experiences Each chapter can be read on its own as furnishing an important analysis of a given theoretical issue yet read as a whole The Oxford Handbook of Criminological Theory offers a unique and deep understanding of criminology at its cutting edge **The Oxford Handbook of Police and Policing** Michael D. Reisig, Robert J. Kane, 2014-03-31 The police are perhaps the most visible representation of government They are charged with what has been characterized as an impossible mandate control and prevent crime keep the peace provide public services and do so within the constraints of democratic principles The police are trusted to use deadly force when it is called for and are allowed access to our homes in cases of emergency In fact police departments are one of the few government agencies that can be mobilized by a simple phone call 24 hours a day 7 days a week They are ubiquitous within our society but their actions are often not well understood The Oxford Handbook of Police and Policing brings together research on the development and operation of policing in the United States and elsewhere Accomplished policing researchers Michael D Reisig and Robert J Kane have assembled a cast of renowned scholars to provide an authoritative and comprehensive overview of the institution of policing The different sections of the Handbook explore policing contexts strategies authority and issues relating to race and ethnicity The Handbook also includes reviews of the research methodologies used by policing scholars and considerations of the factors that will ultimately shape the future of policing thus providing persuasive insights into why and how policing has developed what it is today and what to expect in the future Aimed at a wide audience of scholars and students in criminology and criminal justice as well as police professionals the Handbook serves as the definitive resource for information on this important institution *The Oxford Handbook of Criminology* Alison Liebling, Shadd Maruna, Lesley McAra, 2017 **The Oxford Handbook of Criminology** Alison Liebling, Shadd Maruna, Lesley McAra, 2023 With contributions from leading authorities this is the definitive guide to current criminological theory research and policy The Oxford Handbook of Criminology provides a comprehensive collection of chapters covering the core and emerging topics studied on criminology courses indispensable to students academics and professionals alike 43 chapters written by over 85 leading academics exploring relevant theory cutting edge research policy developments and current debates encouraging students to appreciate the diverse and interdisciplinary nature of criminological discourse Includes detailed references to aid further research Chapters updated to reflect recent cases statistics and scholarship as well as significant current events such as Covid 19 and social justice movements New chapters added presenting research on topical issues including victimology hate crime desistance cybercrime atrocity crimes convict criminology security and smart cities prison abolitionism comparative criminology sex offending and network criminology Digital formats and resources The seventh edition is available for students and institutions to purchase in a variety of formats and is supported by online resources The e book offers a mobile experience and convenient access along with functionality tools navigation features and links that offer extra learning support [www.oxfordtextbooks.co.uk/ebooks](http://www.oxfordtextbooks.co.uk/ebooks) The accompanying

online resources include essay questions and links to useful websites for each chapter along with guidance on answering essay questions and access to chapters from previous editions

*The Oxford Handbook of Developmental and Life-Course Criminology* David P. Farrington, Lila Kazemian, Alex R. Piquero, 2018-11-23 Developmental and life course criminology are both concerned with the study of changes in offending and problem behaviors over time Developmental studies in criminology focus on psychological factors that influence the onset and persistence of criminal behavior while life course studies analyze how changes in social arrangements like marriage education or social networks can lead to changes in offending Though each perspective is clearly concerned with patterns of offending and problem behavior over time the literature on each is spread across various disciplines including criminology criminal justice psychology and sociology The Oxford Handbook on Developmental and Life Course Criminology offers the first comprehensive survey of these two approaches together Edited by three noted authorities in the field the volume provides in depth critical reviews of the development of offending developmental and life course theories development correlates and risk protective factors life transitions and turning points and effective developmental interventions from the world's leading scholars In the first two sections the contributors provide overviews of specific criminal career parameters including age crime curve prevalence frequency of offending and co offending and review the main theoretical frameworks in the developmental and life course criminology areas They further summarize some of the empirical literature on known developmental correlates and risk protective factors associated with longitudinal patterns of offending in the next section The fourth section focuses on life transitions and turning points as they may relate to persistence in or desistance from criminal activity into adulthood while the final section examines the genesis of antisocial delinquent and criminal activity its maintenance and its cessation A state of the art overview on the topic this Handbook aims to be the most authoritative resource on all issues germane to developmental and life course criminologists and provides next steps for further research

*The Oxford Handbook of Criminology* Mike Maguire, Rodney Morgan, Robert Reiner, 1994 This is the most comprehensive and detailed book about criminology ever published in the United Kingdom It is designed to be immediately accessible to those interested in criminology who seek a way of familiarising themselves with the study of crime and criminality

*The Oxford Handbook of Organized Crime* Letizia Paoli, 2014-09-26 While the success of national and international law enforcement cooperation to suppress organized crime means that stable large scale criminal organizations like the Cosa Nostra or the Japanese Yakuza have seen their power reduced organized crime remains a concern for many governments Economic globalization and the easing of restrictions on exchanges across borders now provide ample opportunity for money making activities in illegal markets Policies designed to stop illegal market flows often shift these activities to new places or create new problems as the U S led war on drugs spread production and trafficking to a number South and Central American countries The Oxford Handbook of Organized Crime provides informed authoritative and comprehensive overviews of these issues and other

principal forms of organized crime as well as the type and effectiveness of efforts to prevent and control them. Leading scholars from criminology, law, sociology, history, and political science discuss the key concepts, history, and methods of organized crime; the major actors and interactions involved in it; the markets and activities frequently associated with organized crime; and the policies designed to combat it. Individual chapters on criminal organizations and specific activities or markets comprise the heart of the volume. The chapters on actors provide the history, analyze the structure and activities, and assess the strength and future prospects of each organization. Articles on particular markets address the patterns of activity, identify the most affected regions, and where possible provide estimated revenues, discuss factors promoting the activity, and disclose information on the victims and harms caused. The Oxford Handbook of Organized Crime delivers a systematic, high quality, and truly global approach to the topic and with it a more complete understanding of organized crime in its many forms for researchers, government officials, and policymakers.

The Oxford Handbook of Environmental Criminology  
Gerben J.N. Bruinsma, Shane D. Johnson, 2018-02-08. The Oxford Handbook of Environmental Criminology provides an in depth source for understanding how and why physical setting can influence the emergence of crime, affect the environment, and impact individual or group behavior.

*The Oxford Handbook of Criminal Law*  
Markus D. Dubber, Tatjana Hörnle, 2014-11-27. The Oxford Handbook of Criminal Law reflects the continued transformation of criminal law into a global discipline, providing scholars with a comprehensive international resource, a common point of entry into cutting edge contemporary research, and a snapshot of the state and scope of the field. To this end, the Handbook takes a broad approach to its subject matter, disciplinarily, geographically, and systematically. Its contributors include current and future research leaders representing a variety of legal systems, methodologies, areas of expertise, and research agendas. The Handbook is divided into four parts: Approaches, Methods I, Systems, Methods II, Aspects, Issues, III, and Contexts, Comparisons, IV. Part I includes essays exploring various methodological approaches to criminal law, such as criminology, feminist studies, and history. Part II provides an overview of systems or models of criminal law, laying the foundation for further inquiry into specific conceptions of criminal law, as well as for comparative analysis, such as Islamic, Marxist, and military law. Part III covers the three aspects of the penal process: the definition of norms and principles of liability, substantive criminal law, along with a less detailed treatment of the imposition of norms, criminal procedure, and the infliction of sanctions, prison law. Contributors consider the basic topics traditionally addressed in scholarship on the general and special parts of the substantive criminal law, such as jurisdiction, mens rea, justifications, and excuses. Part IV places criminal law in context, both domestically and transnationally, by exploring the contrasts between criminal law and other species of law, and state power, and by investigating criminal law's place in the projects of comparative law, transnational and international law.

**The Oxford Handbook of White-Collar Crime**  
Shanna R. Van Slyke, Michael L. Benson, Francis T. Cullen, 2016-03-01. The Oxford Handbook of White Collar Crime offers a comprehensive treatment of the most up to date theories and research regarding

white collar crime Contributors tackle a vast range of topics including the impact of white collar crime the contexts in which white collar crime occurs current crime policies and debates and examinations of the criminals themselves The volume concludes with a set of essays that discuss potential responses for controlling white collar crime as well as promising new avenues for future research     The ^AOxford Handbook of Offender Decision Making Wim Bernasco,Henk Elffers,Jean-Louis van Gelder,2017-05-08 The Oxford Handbook of Offender Decision Making provides high quality reviews of the main paradigms in offender decision making such as rational choice theory and dual process theory It contains up to date reviews of empirical research on decision making in a wide range of decision types including not only criminal initiation and desistance but also choice of locations times targets victims methods as well as a large variety of crimes The Handbook also provides comprehensive in depth treatments of the major methods that can be used to study offender decision making

**The ^AOxford Handbook of Gender, Sex, and Crime** Rosemary Gartner,Bill McCarthy,2014-05-14 The Oxford Handbook of Gender Sex and Crime offers an unparalleled and comprehensive view of the connections among gender sex and crime in the United States and in many other countries Its insights illuminate both traditional areas of study in the field and pathways for developing cutting edge research questions     **The ^AOxford Handbook of Ethnographies of Crime and Criminal Justice** Sandra M. Bucerius,Kevin D. Haggerty,Luca Berardi,2021-12-14 The Oxford Handbook of Ethnographies of Crime and Criminal Justice provides critical and current reviews of key research topics issues and debates that crime ethnographers have been grappling with for over a century This volume brings together an outstanding group of scholars to discuss various research traditions the ethical and pragmatic challenges associated with conducting crime related fieldwork relevant policy recommendations for practitioners in the field and areas of future research for crime ethnographers
