Tynianov,2019-10-01 Yuri Tynianov was a key figure of Russian Formalism an intellectual movement in early 20th century Russia that also included Viktor Shklovsky and Roman Jakobson Tynianov developed a groundbreaking conceptualization of literature as a system within and in constant interaction with other cultural and social systems His essays on Russian literary classics like Pushkin s Eugene Onegin and works by Dostoevsky and Gogol as well as on the emerging art form of filmmaking provide insight into the ways art and literature evolve and adapt new forms of expression Although Tynianov was first a scholar of Russian literature his ideas transcend the boundaries of any one genre or national tradition Permanent Evolution gathers together for the first time Tynianov s seminal articles on literary theory and film including several articles never before translated into English [Shifting Perceptions of Migration in Senegalese Literature, Film, and Social Media](#)

Mahriana Rofheart,2013-12-19 In *Shifting Perceptions of Migration in Senegalese Literature Film and Social Media* Mahriana Rofheart proposes a revised understanding of Senegalese migration narratives by asserting the importance of both local and global connections in recent novels hip hop songs and documentary videos Much previous research on migration narratives in French from Africa has suggested that contemporary authors often do not consider their countries of origin

upon departure and instead focus on life abroad or favor a global perspective Rofheart instead demonstrates that today's Senegalese novelists and hip hop artists whether living in France or Senegal express connections to communities both in Senegal and abroad to cope with the traumatic experience of emigration and return Ultimately Rofheart asserts that Senegalese national identity remains significant to the way these authors and artists respond to migration In her examination of novels in French hip hop songs in French and Wolof and online documentaries as well as the social and economic currents that influence the texts production and circulation Rofheart engages with scholarship on transnationalism postcolonialism popular culture and new media studies The study's initial chapters address well known works from the mid twentieth century including Cheikh Hamidou Kane's *Ambiguous Adventure* as well as the films of Ousmane Sembène and Djibril Diop Mambéty This book then demonstrates how novelists such as Aminata Sow Fall and Fatou Diome as well as hip hop artists including Simon and Awadi break with previous tragic depictions of migration in novels and films to present successful responses to the contemporary context of frequent emigration from Senegal

together and expanded on the scientific and popular papers he had been publishing since 1887 creating in the process a landmark ethnography of the Bismarck Archipelago Parkinson moved to New Britain in 1879 only seven years after the first trader had established himself in the area Over the next thirty years he employed many local people on the family s expanding plantations and travelled widely in the area trading for produce especially coconuts observing traditional life and buying artefacts for museums in Europe USA and Australia His travels covered the islands now known as New Britain New Ireland New Hanover Manus Buka and Bougainville but he also collected information about the mainland of New Guinea Kaiser Wilhelmsland His observations covered a wide range of topics from religious life and ceremonies to artefacts and language It is clear he talked extensively with people though mostly with a translator and compared accounts He also took many photographs some 200 of which were included in the volume Given the period all his human subjects had to be posed but the range of associated detail probably unconsciously included is substantial What is particularly important about this work is the period in which it was written While Parkinson may never have been the first contact of any local people he was clearly among the first and observed many societies before they were extensively incorporated into the Western economy or missionised Thirty Years in the South Seas is unparalleled in the literature of the Bismarck Archipelago It is an incomparable picture of a time and place now long past
