Kaminkow,2012-09 Vol 1 905p Vol 2 961p **The First Scottish Enlightenment** Kelsey Jackson Williams,2020-02-25 Traditional accounts of the Scottish Enlightenment present the half century or so before 1750 as at best a not yet fully realised precursor to the era of Hume and Smith at worst a period of superstition and religious bigotry This is the first book length study to systematically challenge that notion Instead it argues that the era between approximately 1680 and 1745 was a First Scottish Enlightenment part of the continent wide phenomenon of early Enlightenment and led by the Jacobites Episcopalians and Catholics of north eastern Scotland It makes this argument through an intensive study of the dramatic changes in historiographical practice which took place in Scotland during this era showing how the documentary scholarship of Jean Mabillon and the Maurists was eagerly received and rapidly developed in Scottish historical circles resulting in the wholesale demolition of the older Humanist myths of Scottish origins and their replacement with the foundations of our modern understanding of early Scottish history This volume accordingly challenges many of the truisms surrounding seventeenth and eighteenth century Scottish history pushing back against notions of pre Enlightenment Scotland as backward insular and intellectually impoverished and mapping a richly polymathic erudite and transnational web of scholars readers and polemicists It highlights the enduring cultural links with France and argues for the central importance of Scotland's two principal religious minorities Episcopalians and Catholics in the growth of Enlightenment thinking As such it makes a major intervention in the intellectual and cultural histories of Scotland early modern Europe and the Enlightenment itself

was a vitally important exercise and one which often involved conflict and complex negotiation. The contributions range widely geographically from Scotland to Transylvania and address a spectrum of themes: attitudes towards the corpse, patterns of burial, forms of commemoration, the treatment of dead infants, the nature of the afterlife and ghosts. Individually, the essays help to illuminate several current historiographical concerns: the significance of the Black Death, the impact of the Protestant and Catholic Reformations, and interactions between elite and popular culture. Collectively, by exploring the social and cultural meanings of attitudes towards the dead, they provide insight into the way these past societies understood themselves.
