

The background of the entire image is a photograph of a cave interior. A path of stone steps leads from the bottom center towards a bright, glowing light source at the far end of a stone archway. The walls of the cave are rough and textured, and the overall color palette is warm, dominated by browns and oranges from the stone and the light.

Mousie, I Will Read to You Rachael Cole,2018-11-13 Like Rosemary Wells s Read to Your Bunny and with the charm of The Wonderful Things You Will Be this gorgeous book will surely appeal to families who want their children to become lifelong readers Long before the words make sense Mousie I will read to you The simplest story about an acorn that drops to the ground So begins this warm and poignant picture book that follows a mama mouse and her baby mouse on the little mouse s journey to becoming a reader from infancy to toddlerhood to elementary school and beyond When Mousie is little Mama sings him lullabies about the sky repeats back his DA DA DEES and BA BA BEES and reads him poems and stories about wonderful things like forests and bears Then one day on a playground next to the library Mousie sounds out a word then two then three and a reader is born Inspired by the American Academy of Pediatrics recommendation to read aloud to your children from the day they are born here is a charming picture book that celebrates families reading together

The Evolution of Death Stanley Shostak,2012-02-01 In

The Evolution of Death the follow up to Becoming Immortal Combining Cloning and Stem Cell Therapy also published by SUNY Press Stanley Shostak argues that death like life can evolve Observing that literature philosophy religion genetics physics and gerontology still struggle to explain why we die Shostak explores the mystery of death from a biological perspective Death Shostak claims is not the end of a linear journey static and indifferent to change Instead he suggests the current efforts to live longer have profoundly affected our ecological niche and we are evolving into a long lived species Pointing to the artificial means currently used to prolong life he argues that as we become increasingly juvenilized in our adult life death will become significantly and evolutionarily delayed As bodies evolve the embryos of succeeding generations may be accumulating the stem cells that preserve and restore providing the resources necessary to live longer and longer If trends like this continue Shostak contends future human beings may join the ranks of other animals with indefinite life spans
