The Cambridge History of the Gothic: Volume 2, Gothic in the Nineteenth Century Catherine Spooner, 2020-08-06 This second volume of *The Cambridge History of the Gothic* provides a rigorous account of the Gothic in British American and Continental European culture from the Romantic period through to the Victorian fin de siècle Here leading scholars in the fields of literature theatre architecture and the history of science and popular entertainment explore the Gothic in its numerous interdisciplinary forms and guises as well as across a range of different international contexts As much a cultural history of the Gothic in this period as an account of the ways in which the Gothic mode has participated in the formative historical events of modernity the volume offers fresh perspectives on familiar themes while also drawing new critical

attention to a range of hitherto overlooked concerns From Romanticism to Penny Bloods Dickens and even the railway system the volume provides a compelling and comprehensive study of nineteenth century Gothic culture Victorians Against the Gallows James Gregory,2011-11-30 By the time that Queen Victoria ascended the throne in 1837 the list of crimes liable to attract the death penalty had effectively been reduced to murder Yet despite this the gallows remained a source of controversy in Victorian Britain and there was a growing unease in liberal quarters surrounding the question of capital punishment Unease was expressed in various forms including efforts at outright abolition Focusing in part on the activities of the Society for the Abolition of Capital Punishment James Gregory here examines abolitionist strategies leaders and personnel He locates the gallows question in an imperial context and explores the ways in which debates about the gallows and abolition featured in literature from poetry to novels of purpose and popular romances of the underworld He places the abolitionist movement within the wider Victorian worlds of philanthropy religious orthodoxy and social morality in a study which will be essential reading for students and researchers of Victorian history **The Mysteries of London Volume 1 (of 4) (Illustrations)** George William MacArthur Reynolds,2014-12-02 Example in this ebook Between the 10th and 13th centuries Civilisation withdrew from Egypt and Syria rested for a little space at Constantinople and then passed away to the western climes of Europe From that period these climes have been the grand laboratory in which Civilisation has wrought out refinement in every art and every science and whence it has diffused its benefits over the earth It has taught commerce to plough the waves of every sea with the adventurous keel it has enabled handfuls of disciplined warriors to subdue the mighty armaments of oriental princes and its daring sons have planted its banners amidst the eternal ice of the poles It has cut down the primitive forests of America carried trade into the interior of Africa annihilated time and distance by the aid of steam and now contemplates how to force a passage through Suez and Panama The bounties of Civilisation are at present almost everywhere recognised Nevertheless for centuries has Civilisation established and for centuries will it maintain its headquarters in the great cities of Western Europe and with Civilisation does Vice go hand in hand Amongst these cities there is one in which contrasts of a strange nature exist The most unbounded wealth is the neighbour of the most hideous poverty the most gorgeous pomp is placed in strong relief by the most deplorable squalor the most seducing luxury is only separated by a narrow wall from the most appalling misery The crumbs which fall from the tables of the rich would appear delicious viands to starving millions and yet those millions obtain them not In that city there are in all districts five prominent buildings the church in which the pious pray the gin palace to which the wretched poor resort to drown their sorrows the pawnbroker s where miserable creatures pledge their raiment and their children s raiment even unto the last rag to obtain the means of purchasing food and alas too often intoxicating drink the prison where the victims of a vitiated condition of society expiate the crimes to which they have been driven by starvation and despair and the workhouse to which the destitute the aged and the friendless hasten to lay down their aching heads and die And congregated together in one

district of this city in an assemblage of palaces whence emanate by night the delicious sounds of music within whose walls the foot treads upon rich carpets whose sideboards are covered with plate whose cellars contain the choicest nectar of the temperate and torrid zones and whose inmates recline beneath velvet canopies feast at each meal upon the collated produce of four worlds and scarcely have to breathe a wish before they find it gratified Alas how appalling are these contrasts And as if to hide its infamy from the face of heaven this city wears upon its brow an everlasting cloud which even the fresh fan of the morning fails to disperse for a single hour each day And in one delicious spot of that mighty city whose thousand towers point upwards from horizon to horizon as an index of its boundless magnitude stands the dwelling of one before whom all knees bow and towards whose royal footstool none dares approach save with downcast eyes and subdued voice The entire world showers its bounties upon the head of that favoured mortal a nation of millions does homage to the throne whereon that being is exalted The dominion of this personage so supremely blest extends over an empire on which the sun never sets an empire greater than Jenghiz Khan achieved or Mohammed conquered This is the parent of a mighty nation and yet around that parent s seat the children crave for bread To be continue in this ebook *G.W.M. Reynolds* Anne

Humpherys,2017-03-02 G W M Reynolds 1814 1879 had a major impact on the mid Victorian era that until now has been largely unacknowledged A prolific novelist whose work had a massive circulation and an influential journalist and editor he was a man of contradictions in both his life and writing a middle class figure who devoted his life to working class issues but seldom missed a chance to profit from the exploitation of current issues the founder of the radical newspaper Reynolds Weekly as well as a bestselling author of historical romances gothic and sensation novels oriental tales and domestic fiction a perennial bankrupt who nevertheless ended his life prosperously A figure of such diversity requires a collaborative study Bringing together a distinguished group of scholars this volume does justice to the full range of Reynolds s achievement and influence With proper emphasis on new work in the field the contributors take on Reynolds s involvement with Chartism serial publication the mass market periodical commodity culture and the introduction of French literature into British consciousness to name just a few of the topics covered The Mysteries of London the century s most widely read serial receives the extensive treatment this long running urban gothic work deserves Adding to the volume s usefulness are comprehensive bibliographies of Reynolds s own writings and secondary criticism relevant to the study of this central figure in mid nineteenth century Britain *G. W. M. Reynolds and His Fiction* Stephen Knight,2018-12-12 George Reynolds is arguably the most prolific of all nineteenth century English novelists reaching an enormous audience through his thirty six novels Often selling in very large numbers in weekly one penny installments his works were known as by the most popular English novelist ever Yet today he remains almost unknown in the canon of English Literature A serious radical strongly pro woman and a leading Chartist seeking the vote for all men Reynolds vigorous heroines differ notably from the Victorian novelists timid norm He was strongly pro Jewish and pro Gypsy very interested in French and Italian society but wrote for

ordinary English working people Dickens thought him a dangerous leftist for all these reasons he was excluded from the elite literary world G W M Reynolds *The Man Who Outsold Dickens* reestablishes Reynolds as a major figure of mid nineteenth century fiction and an author of European range and status This book examines his massive popularity and notable concern with the problems of ordinary people especially women in the complex and often dangerous new world of the modern city With the support of his wife Susannah Reynolds enormous influence would also make a contribution to the cause of mass political education through his role in the development of popular fiction and journalism This book is a major innovation in the field of Victorian literary studies with relevance to popular cultural studies the politics of literature and publishing history presenting properly a much overlooked major English novelist *The Publishers' Circular and General Record of British and Foreign Literature*, 1889 **Coal in Modern Britain** Charles-François Mathis, 2025-08-21 This is the first book to examine the social and cultural significance of coal in British society in the 19th and 20th centuries An English language translation of Charles Fran ois Mathis s award winning study *Coal in Modern Britain* gets to the heart of Britain s evolving relationship with this controversial energy source How did the general public use and manage coal on a daily basis Did they readily accept it did they reject it and how What were the material and cultural features of a society so reliant on coal Historians have long considered the political technical and economic structures of energy systems but here the vital social and cultural contexts are crucially laid bare The book demonstrates how coal shaped the living environment and the ways of thinking of British people from the early 19th century through to the coal minded society of the 1940s that had become entirely focussed on this fuel as an energy source Mathis emphasises the perspectives of ordinary consumers and looks at the energy cultures that emerged in everyday life in Britain during the period He looks at how coal impacted the land cities and homes of modern Britain along with the developing habits and routines surrounding coal use within the domestic setting *Coal in Modern Britain* also reveals how coal was taught to children both at school and at home and how it was vehemently defended against its rivals of oil electricity and gas during this peak time of fuel pre eminence *The History of Suicide in England, 1650-1850, Part I Vol 1* Mark Robson, Paul S Seaver, Kelly McGuire, Jeffrey Merrick, Daryl Lee, 2024-08-01 This two part eight volume reset edition draws together a range of sources from the early modern era through to the industrial age to show the changes and continuities in responses to the social political legal and spiritual problems that self murder posed

Publishers' Circular and General Record of British and Foreign Literature, and Booksellers' Record, 1898 *American Literature and the Culture of Reprinting, 1834-1853* Meredith L. McGill, 2007-04-30 The antebellum period has long been identified with the belated emergence of a truly national literature And yet as Meredith L McGill argues a mass market for books in this period was built and sustained through what we would call rampant literary piracy a national literature developed not despite but because of the systematic copying of foreign works Restoring a political dimension to accounts of the economic grounds of antebellum literature McGill unfolds the legal arguments and political struggles that produced an

American culture of reprinting and held it in place for two crucial decades In this culture of reprinting the circulation of print outstripped authorial and editorial control McGill examines the workings of literary culture within this market shifting her gaze from first and authorized editions to reprints and piracies from the form of the book to the intersection of book and periodical publishing and from a national literature to an internally divided and transatlantic literary marketplace Through readings of the work of Dickens Poe and Hawthorne McGill seeks both to analyze how changes in the conditions of publication influenced literary form and to measure what was lost as literary markets became centralized and literary culture became stratified in the early 1850s *American Literature and the Culture of Reprinting 1834-1853* delineates a distinctive literary culture that was regional in articulation and transnational in scope while questioning the grounds of the startlingly recent but nonetheless powerful equation of the national interest with the extension of authors rights
