The Myths and Legends of Ancient Greece and Rome E. Berens, 1894 The author sets before the reader a lifelike picture of the deities of classical times as they were conceived and worshipped by the ancients themselves and thereby to awaken in the minds of young students a desire to become more intimately acquainted with the noble productions of classical antiquity The aim was to render the legends which form the second portion of this work a picture of old Greek life its customs superstitions and princely hospitalities for which reason they are given at somewhat greater length than is usual in works of Myths and Legends of Ancient Greece and Rome E. M. Berens, 2014-04-15 Before entering upon the many this kind strange beliefs of the ancient Greeks and the extraordinary number of gods they worshipped we must first consider what kind of beings these divinities were In appearance the gods were supposed to resemble mortals whom however they far surpassed in beauty grandeur and strength they were also more commanding in stature height being considered by the Greeks an attribute of beauty in man or woman They resembled human beings in their feelings and habits intermarrying and having children and requiring daily nourishment to recruit their strength and refreshing sleep to restore their energies Their blood a bright ethereal fluid called Ichor never engendered disease and when shed had the power of producing new life The Greeks believed that the mental qualifications of their gods were of a much higher order than those of men but nevertheless as we shall see they were not considered to be exempt from human passions and we frequently behold them actuated by revenge deceit and jealousy They however always punish the evil doer and visit with dire calamities any impious mortal who

dares to neglect their worship or despise their rites We often hear of them visiting mankind and partaking of their hospitality and not unfrequently both gods and goddesses become attached to mortals with whom they unite themselves the offspring of these unions being called heroes or demi gods who were usually renowned for their great strength and courage But although there were so many points of resemblance between gods and men there remained the one great characteristic distinction viz that the gods enjoyed immortality Still they were not invulnerable and we often hear of them being wounded and suffering in consequence such exquisite torture that they have earnestly prayed to be deprived of their privilege of immortality Hand-Book of Mythology E. M. Berens, 2010-11 Excerpt It is hardly necessary to dwell upon the importance of the study of Mythology our poems our novels and even our daily journals teem with classical allusions nor can a visit to our art galleries and museums be fully enjoyed without something more than a mere superficial knowledge of a subject which has in all ages inspired painters sculptors and poets It therefore only remains for me to express a hope that my little work may prove useful not only to teachers and scholars but also to a large class of general readers who in whiling away a leisure hour may derive some pleasure and profit from its perusal
