CTE, Media, and the NFL Travis R. Bell, Janelle Applequist, Christian Dotson-Pierson, 2019-06-25 CTE Media and the NFL Framing a Public Health Crisis as a Football Epidemic examines the central role of media in constructing an entangled relationship between chronic traumatic encephalopathy CTE and the National Football League NFL challenging a predominately symbiotic sports media complex The authors of this book analyze more than a decade of media coverage along with three prominent films to unpack how media discourse resurrects CTE a preventable degenerative brain disease linked to boxing in 1928 and subsequently frames it as a football epidemic dating back to 2005 The authors position CTE as a public health crisis whereby media coverage of CTE and the NFL's vigorous reliance on controversial published research by the Mild Traumatic Brain Injury MTBI Committee parallels the moral panic of the HIV AIDS epidemic and Big Tobacco's manufacturing of doubt through faulty science This book argues that the continued aspiration and idolization of the NFL and its lack of accountability for health concerns surrounding brain injuries highlight the firm grasp of hegemonic masculinity on the ideology of American football further problematizing media's glorification of the sport Scholars of sports media health communication and general media studies will find this book particularly useful to discuss longitudinal effects of media framing centered on critical health risks in sport and the challenge of translating accurate scientific knowledge to the public domain

The Eternal Present of Sport Daniel A. Grano, 2017-06 In his persuasive study *The Eternal Present of Sport* Daniel Grano rethinks the sport religion relationship by positioning sport as a source of theological trouble Focusing on bodies time movement and memory he demonstrates how

negative theology can be practically and theoretically useful as a critique of elite televised sport Grano asserts that it is precisely through sport's highest religious ideals that controversies are taking shape and constituting points of political and social rupture He examines issues of transcendence legacy e g greatest ever or all time and witnessing through instant replay which undermine institutional authority Grano also reflects on elite athletes representing especially powerful embodiments of religious and social conflict including around issues related to gender sexuality ability doping traumatic brain injury and institutional greed Elite sport is in a period of profound crisis It is through the ideals Grano analyzes that we can imagine a radically alternative future for elite sport

The Power of Sports Michael Serazio, 2019-04-23 A provocative must read investigation that both appreciates the importance of and punctures the hype around big time contemporary American athletics In an increasingly secular fragmented and distracted culture nothing brings Americans together quite like sports On Sundays in September more families worship at the altar of the NFL than at any church This appeal which cuts across all demographic and ideological lines makes sports perhaps the last unifying mass ritual of our era with huge numbers of people all focused on the same thing at the same moment That timeless live quality impervious to DVR evoking ancient religious rites makes sports very powerful and very lucrative And the media spectacle around them is only getting bigger brighter and noisier from hot take journalism formats to the creeping infestation of advertising to social media celebrity schemes More importantly sports are sold as an oasis of community to a nation deeply divided They are escapist apolitical the only tie that binds In fact precisely because they appear allegedly above politics sports are able to smuggle potent messages about inequality patriotism labor and race to massive audiences And as the wider culture works through shifting gender roles and masculine power those anxieties are

also found in the experiences of female sports journalists athletes and fans and through the coverage of violence by and against male bodies Sports rather than being the one thing everyone can agree on perfectly encapsulate the roiling tensions of modern American life Michael Serazio maps and critiques the cultural production of today's lucrative ubiquitous sports landscape Through dozens of in depth interviews with leaders in sports media and journalism as well as in the business and marketing of sports The Power of Sports goes behind the scenes and tells a story of technological disruption commercial greed economic disparity military hawkishness and ideals of manhood In the end despite what our myths of escapism suggest Serazio holds up a mirror to sports and reveals the lived realities of the nation staring back at us Communication and Sport Andrew C. Butterworth, Nicky Lewis, 2025-07-15 Communication and Sport Surveying the Field examines a wide array of topics necessary for students to understand sports media rhetoric culture and organizations from micro to macro level issues Everything from youth to amateur to professional sports is addressed through varied useful lens such as mythology community and identity Communication and Sport introduces readers to the traditions and vocabulary found in communication scholarship as it then explains what distinguishes communication from related disciplinary approaches such as sociology anthropology history and cultural studies Subsequent chapters explore such issues as fan cultures racial identity and gender in sports media politics and nationality in sports parent child relationships and player coach interactions in sports sports and religion and crisis communication in sports organization In response to changes in the sporting landscape the Fifth Edition features an extensive structural change and reorganization with newly designed units and chapters in addition to introducing a new coauthor Nicky Lewis **Insights in sports social science** Hans Westerbeek, Gayle McPherson, Jess C. Football, Culture and Power David J. Leonard, Kimberly B. Making Sport Great Again David L. Andrews, 2019-04-05 Blending critical theory conjunctural cultural studies and assemblage theory Making Sport Great Again introduces and develops the concept of uber sport the sporting expression of late capitalism's conjoined corporatizing commercializing spectacularizing and celebritizing forces On different scales and in varying spaces the uber sport assemblage is revealed both to surreptitiously reinscribe the neoliberal preoccupation with consumption and to nurture the individualized consumer subject Andrews further probes how uber sport normalizes the ideological orientations and affective investments of the Trump assemblage's authoritarian populism Even as it articulates the regressive politicization of sport Making Sport Great Again serves also as a call to action how might progressives rearticulate uber sport in emancipatory and actualizing political formations
