**Comparative Sociology of Examinations** Fumiya Onaka, 2019-03-28 Contemporary societies are constructed constricted and constrained by various series of examinations Governments of both Western and non Western countries tend to conduct detailed multi layered and continuous systems of tests or examinations International tests such as PISA and TIMSS have also been introduced to compare the relative performances of learners within diverse educational institutions across different countries Examinations

therefore provide a methodological pivot for comparing a range of societies They enable us to contrast the West and the East the North and the South tribal and mass society ancient and postmodern civilization and so on Comparing parallel societies from across Asia the Middle East Europe and North America this book proposes fundamental transitions in sociological research from system to process and from communication to composition through intensive studies on examinations It uses ethnographies interviews questionnaires documents statistics and big data analyses to make comparisons on broad scales of time and space In so doing it suggests hypotheses encompassing different kinds of societies in human history including those in the Axial Age and the Modern Ages *EASYUNI Ultimate University Guide 2014* EasyUni Sdn Bhd,2014-07-02

Hi there It is nice to present you once again with another hot issue of easyuni On 11 June this year we launched the unifrens social platform an extension to easyuni's existing vision of providing comprehensive and accurate information to students about colleges and universities This is another milestone in the history of easyuni as one of Asia's most popular education portals committed to helping students with their higher education plans unifrens is a social platform which allows students searching for universities and colleges with similar interests to connect with each other to help them make unbiased and community driven decisions about their higher education It also allows them to connect with students who are currently enrolled at universities who can tell them about their experiences about a particular city country university or a course unifrens is something we had been planning for a while to complement our current family of tools for students We always knew that our users would love it as they want more community driven information instead of promotional content from universities and study abroad consultants I believe this feature will democratise the way information about specific courses countries or institutions is presented and this can only mean good news for students and their parents visitors as it helps them make more informed decisions about which course institution or country to pick Students can also pose questions to their groups which will be answered by experts and the community The feature is still in its beta stage but has gained massive traction with over 100 000 users already registered and assigned to groups Exciting isn't it The issue you're holding now has so much to offer as well So read every page and fill yourself with all the knowledge needed to make informed decisions about your higher education
