The Oh My God Delusion:

The Oh My God Delusion Paul Howard, Ross O'Carroll-Kelly, 2010-10-07 That risk assessor ex of Sorcha's turned out to be right it really was the end of the world as we knew it See I thought the party was going to last forever I certainly didn't believe the current economic blahdy blah was going to affect people like me But as I watched the shutters fall one by one on all my old haunts Renards Mint Guess Meanswear I was forced to question all the truths that I once held as sacred Sorcha's boutique was bleeding me dry the Department of Social Welfare had stuck two yahoos in the penthouse next door while Oisinn his business empire in ruins hadn't been seen since he porked his cor at Dublin Airport and took off for who knows where Isn't it wonderful the old man went Times like these they bring out the best in people like us But just when I thought the recession couldn't get any worse an unexpected twist in the tale threatened to take away the most precious thing in the world to me

Reading Paul Howard Eugene O'Brien, 2023-12-22 Reading Paul Howard *The Art of Ross O'Carroll Kelly* offers a thorough examination of narrative devices satirical modes cultural context and humour in Howard's texts The volume argues that his academic critical neglect is due to a classic bifurcation in Irish Studies between high and popular culture and it will use the thought of Pierre Bourdieu Sigmund Freud Mikhail Bakhtin and Jacques Derrida to critique this division building a theoretical platform from which to examine the significance of Howard's work as an Irish comic and satirical writer Addressing both the style and the substance of his work this text locates him in a tradition of Irish satirical writing that dates back to the Gaelic bards and it includes writers like Swift Wilde Flann O'Brien and Joyce Through textual and contextual analysis this book makes the case for Howard as a significant and original voice in Irish writing whose fusion of the three traditional types of satire Horatian Juvenalian and Menippean has created a parallel Ireland that shines a satirical light on its real counterpart As Freud suggests humour is a way of accessing aspects of the psyche that normative discourses cannot enunciate and Howard through the confessional voice of Ross offers a fictive truth on 20 years of Irish society a truth that is not accessed by discourse in the public sphere or by what could be termed literary or high cultural fiction

The Undecidable Clare Gorman, 2015-09-18 This book offers a detailed engagement between the French philosopher Jacques Derrida and the contemporary Irish author Paul Howard aka Ross O'Carroll Kelly The book offers insightful analyses of Derrida's deconstructive theory with all its concepts non-concepts and neologisms thus showing how they can be used in order to provide a critique of the socio-linguistic realm of Howard's fictional series Through his work Howard set in ink a depiction of Ireland and specifically Dublin throughout the Celtic Tiger era and its aftermath The book promotes a dialogue between Derrida and Howard in order to cultivate a succinct and accessible overview of critical theory

The Paleolithic Paradigm Terry Stocker, 2009-12 The Paleolithic Paradigm takes us one step further in the nature nurture debate Certainly a certain percentage of our behaviors are biologically based However culture has the power to override much in genetic commands The Amish exemplify this no matter how much we qualify them as quaint Painting with a wide post modern paint brush Stocker takes on a journey through four cultures to show how different people can be He offers the analogy our genetic structure is the framework of any house How we cover and decorate that frame is often the product of ancient traditions However we are all products of the same cognitive processes thus explaining why we take ideas put into our heads as children to the grave whether we accept them reject them or alter them It is this commonality the author examines Accordingly he wants to know if we understand our cognition processes can we change out behavior at will
