Tanis William M. Flinders Petrie,1888 **Aimed solar and lunar returns. What you can do when you cannot leave**
Ciro Discepolo,2009 English speaking readers fond of Astrology already know the Author thanks to his previous works Transits and Solar Returns and Lunar Returns and Earth Returns which have also been translated into several other languages In a practice of almost forty years of astrological research the Author has studied and guided over twenty thousand aimed birthdays he has also published a dozen books specifically on Solar Returns and Lunar Returns This is his fifth work in English two of them can be downloaded free from his webpage www.cirodiscepolo.it In this volume **Ciro Discepolo** deals with the second resource on which his Active Astrology is based the first one being the aimed birthday the so called exorcism of symbols In these pages the Author suggests to the Reader about what can be done when you cannot aim i e actively relocate your birthday either your Solar or Lunar Return by a practical application of the notion of activating or constellating a symbol For example **Ciro Discepolo** claims that if you can not leave for an aimed birthday to avoid Saturn being placed in the 5th House of your next Solar Return during the twelve months covered by the SR you had better devote more time to your kids help them in their studies or in their sporting activities pay the fee to enrol them in a course perhaps abroad where they could learn new subjects and or nurture and improve their condition in a broad sense Planet by planet House by House this volume contains all the suggestions of the Author on the exorcism of symbols a useful practice also in the case you do relocate your Solar and or Lunar Returns for example if you have willingly left some dissonant position in your map of Aimed SR or of Aimed LR and you wish to lower the threshold of risk a little more The volume also explains the philosophical and psychological roots justifying the practice of the exorcism of symbols **From Old Revelation to New**

Population Policies and Programmes in Singapore (Second Edition) Saw Swee-Hock,2016-06-23 The second edition of *Population Policies and Programmes in Singapore* presents an up to date and comprehensive account of the government s initiatives to influence the course of fertility and hence the rate of population growth in the island state of Singapore since the 1960s The varied population issues and consequences associated with the prolonged below replacement fertility are discussed in detail The strength of the book lies in the author s intimate familiarity with the subject acquired through some personal involvement in the formulation of population policies for the country Unknown Lutsk Karaim Letters in Hebrew Script (19th-20th Centuries) Michał Németh,2013-05 The work presents as far as is now possible the language spoken by

Lutsk Karaims in the second half of the 19th and in the first two decades of the 20th centuries This is attempted by means of editing eleven private letters and five open letters written in Lutsk Karaim with Hebrew interpolations The letters were written by different authors in Hebrew script The present publication appears to be the first critical edition of this type of text written in this particular dialect Previous editions of south western Karaim manuscripts either concerned very short texts from Halych or were prepared with no intention of being professional The linguistic description of the texts aims to present a grammar of the manuscripts language It is complemented with a separate chapter dealing with the Slavonic structural influences exerted on the authors idiolects and with the lexicon of the texts A separate part deals with the orthography and the features of the writing itself The transcription and translation of each manuscript are preceded with a concise palaeographic description and a summary of the content The work closes with a glossary several indexes maps and the facsimile of the manuscripts

Inequality in Financial Capitalism Pasquale Tridico, 2017-03-16 Recently the issue of inequality has regained attention in the economic and political debate This is due to both an increase in income inequality in particular among rich countries and an increasing interest in this issue by researchers and politicians In the last three decades income inequality among rich countries increased This period also witnessed the growth of financial capitalism characterised by the strong dependency of economies on the financial sector by the globalisation and intensification of international trade and capital mobility and by the flexibilisation of labour markets and the reduction of wage shares From the 1980s to the present day this book considers the theoretical aspects of inequality its foundations definitions approaches and origins and examines empirical evidence of income inequality in a wide range of advanced economies The key arguments in this volume are that income inequality increased during this period because labour and welfare became seen as costs to be compressed in financial capitalism rather than as a fundamental part of aggregate demand to be expanded However the welfare state is not a drain on economic performance and competitiveness nor is it a barrier to economic efficiency Instead it is demonstrated that in countries that adopt welfare capitalism welfare state expenditure not only contributes to a reduction in inequality but also fosters economic growth

Inequality in Financial Capitalism is of great importance to those who study economics political economy labour economics and globalisation
