by S. E. Hinton

Please answer the following questions on a separate sheet of paper.

Chapter 1

1. Who are the Socs? Who are the Greasers?

Socs - rich, madras, mustangs, East side

Greasers - poor, t-shirts and jeans, West side

2. How is Pony's relationship with Darry different from his relationship with Soda?

Darry is more like a father-figure to Pony. He loves him, but they argue a lot and he is hard on him. Soda and Pony are friends. He really understands Pony and they have a lot in common.

3. Why is the "gang" so important to Johnny?

He relies on them like family, because his father abuses him and his mother ignores him.

4. Do you think Darry loves Pony? Why does he treat Pony the way he does?

Yes, he does love Pony. He is hard on Pony because he doesn't want him to get in trouble because then the boys would be split up. He wants Pony to have a good life.

5. Explain what Pony means when he says, "I lie to myself all the time". Why do you think people lie to themselves?

He tries to convince himself something is truth. For example, he tries to convince himself that he doesn't care that Darry doesn't love him, but he does care whether or not Darry loves him.

Chapter 2

1. Who are Cherry and Marcia?

Two Socy girls Pony and Johnny picked up at the drive-in.

2. Why is it strange that Cherry and Pony get along so well?

Socs and Greasers shouldn't get along, but Cherry and Pony have a lot in common - sunsets, dreamers, school.

Living Water Robert P. Vande Kappelle, 2022-10-27 Everyone loves a good story one with interesting characters an intriguing plot lots of twists and turns and a surprise ending Jesus was a master storyteller teaching primarily through a technique we call parables In fact over one third of the gospel material in the New Testament is parabolic in nature Examining the parables of Jesus Living Water views parables as a wisdom genre belonging to mashal the Jewish tradition of sacred poetry stories proverbs riddles and dialogues through which wisdom is conveyed In the Hebrew Bible the Old Testament mashal is often associated with perplexing sayings for its meaning is deliberately obscured in order to force the reader or listener to deeper thought and higher consciousness While examining the parables of Jesus Living Water focuses not so much on traditional explanations and interpretations but on their paradoxical and perplexing nature In addition this book encourages us to take a parabolic approach to all Scripture viewing it as an aid to help us move from egoic existence to unitive existence This Spirit led way of living thinking and being requires a transformation from our False Self to our True Self from dualist self obsession to nondualist consciousness characterized by risk taking compassion generosity availability and joy a path charted by the parables of Jesus Benefitting from recent scholarly research Living Water is unique in content and conception and is useful for individual or group study Each chapter concludes with questions suitable for discussion or reflection

Dynamics of Culture J. Zvi Namenwirth, Robert Philip Weber, 2016-10-04 This book first published in 1987 is a landmark contribution to macrosociology that extends the tradition of Sorokin Durkheim Marx Weber and other founders of the discipline in new and exciting directions Using their innovative content analysis methodology to examine American and British political documents the authors show that the long term dynamics of culture are subject to their own laws and are

independent of the actions of great men and other individual actors This comprehensive volume brings together over two decades of the authors research on culture indicators Key findings include the identification of two long term cultural cycles in the United States and Great Britain one is related to party realignments the other to long term economic fluctuations In addition the authors demonstrate how culture provides the themes that political parties use to interpret economic conditions in their appeal for votes Other results show that organizational cultures move in opposite directions from those in the culture of the larger society The book also includes detailed discussions of both the methodology used to analyse text content and related metatheoretical issues in the study of cultural dynamics

Corporatism Or Competition? Coen Teulings, Joop Hartog, 1998-09-17 The authors present important research showing that corporatist institutions generate smaller non competitive wage differentials than a decentralized system A theoretical explanation is developed based on the hold up problem in investments arguing that corporatist institutions solve the problem by specifying ex ante nominal contracts that remove the necessity of ex post bargaining over the surplus of an employment relationship The authors also argue that such institutions allow sufficient flexibility to accommodate aggregate shocks even more so than decentralized systems Corporatism or Competition is the first book to

bring together the mass of research on comparative wage differences wage movements and employment behaviour in different countries with different institutional frameworks in an organized and coherent fashion **Inscribing**
