The Passion Of Command The Moral Imperative Of Leadership:

Passion of Command B. P. McCoy, 2006-06-30 The Military Leadership Handbook Robert W. Walker, Bernd Horn, 2008-09-29 In the simplest of terms leadership is about influencing people to achieve an objective that is important to the leader the group and the organization It is the human element leading motivating and inspiring particularly during times of crisis chaos and complexity when directives policy statements and communiques have little effect on cold exhausted and stressed followers Strong leadership encourages subordinates to go beyond the obligation to obey and commit to the mission in a way that maximizes their potential The Military Leadership Handbook is a concise and complete manual that identifies describes and explains all those concepts components and ideas that deal with or directly relate to military leadership The book is a comprehensive compendium that focuses on among other subjects cohesion command cultural intelligence discipline fear and trust this applied manual provides invaluable assistance to anyone who wishes to acquire a better understanding of both the theory and application of military leadership Marine Maxims Thomas J Gordon, 2021-11-10 Marine Maxims is a collection of fifty principle based leadership lessons that Thomas J Gordon acquired commanding Marines over a career spanning three decades of service Dealing with the complexities and challenges of the contemporary operating environment requires an internal moral compass fixed true These maxims focus on developing inner citadels of character moral courage and the resilience to persevere in a contested domain where information is key Its purpose is to provide future leaders with a professional development plan that will steel their resolve and enable them to lead with honor Thematically these maxims build upon a foundation of character courage and will To be effective a leader must model and inspire the will to persevere in the face of danger or adversity The essence of effective leadership is credibility A leader's credibility is derived from a congruence of competence and character Exceptional leaders are not remembered for what they accomplished but how they did it Those that lead with integrity will be remembered as a leader worth following *Wired for War* P. W. Singer, 2009-01-22 Singer's enthusiasm becomes infectious *Wired for War* is a book of its time this is strategy for the Facebook generation Foreign Affairs An engrossing picture of a new class of weapon that may revolutionize future wars Kirkus Reviews P W Singer explores the greatest revolution in military affairs since the atom bomb the dawn of robotic warfare We are on the cusp of a massive shift in military technology that threatens to make real the stuff of *I Robot* and *The Terminator* Blending historical evidence with interviews of an amazing cast of characters Singer shows how technology is changing not just how wars are fought but also the politics economics laws and the ethics that surround war itself Travelling from the battlefields of Iraq and Afghanistan to modern day skunk works in the midst of suburbia *Wired for War* will tantalise a wide readership from military buffs to policy wonks to gearheads The Post-American Middle East Laurent A. Lambert, Moosa Elayah, 2023-06-17 After two decades of War on Terror it is particularly important for both academic and policy purposes to clearly understand why the US formidable mobilization of means and might has transformed into a such a

blatant geostrategic defeat of the US and its allies in the broad Middle East This is all the more paradoxical that the WOT achieved a series of tactical victories such as the toppling of hostile regimes in Afghanistan Iraq and Libya the crippling of the national economies of enemy states by sanctions the successful targeted killing of lead terrorist Usama Bin Laden ISIS cult leaders Abu Bakr Al Baghdadi and his successor etc So why have these tactical victories not led to what was supposed to become according to the US government a Greater Middle East With most authors being from or living in the Middle East this book is unique as it brings perspectives and answers from the region This is crucially important as we are entering we argue the era of a Post American Middle East Chapters 1 and 10 are available open access under a Creative Commons Attribution 4 0 International License via link springer.com

Finding God in War? Sharon Catherine Ryan, Lt Col USMC Paul Jeffrey Prinster, 2009-12 Finding God in War Is a book about courage inspiration and hope Within its pages you will find the true stories of U S Soldiers Sailors and Marines who served in Iraq and Afghanistan and who deepened their understanding of their role in the military and within God s universe of complex and confounding circumstances Their stories of war serve as inspiration for everyone on how to make sense of our daily endeavors by learning how to uncover a deeper meaning in our lives Read about the luckiest unluckiest Marine alive who felt his presence rest directly within the safe hands of God as a bullet whizzed directly through his helmet leaving him completely intact suffering only with a newly parted hairstyle Another Marine infuses scripture into his being for strength and courage by stuffing pages from the Bible into his boots prior to entering battle A young reservist listens to the sound of blasts going off around him and feels complete peace knowing his role is to serve others and his fate rests in God s hands All of us can learn how to cope with our daily existences by tapping into the spiritual coping skills of U S Warriors

Understanding Military Doctrine Harald Hoiback, 2013-07-18 This book puts military doctrine into a wider perspective drawing on military history philosophy and political science Military doctrines are institutional beliefs about what works in war given the trauma of 9 11 and the ensuing War on Terror serious divergences over what the message of the new military doctrine ought to be were expected around the world However such questions are often drowned in ferocious meta doctrinal disagreements What is a doctrine after all This book provides a theoretical understanding of such questions Divided into three parts the author investigates the historical roots of military doctrine and explores its growth and expansion until the present day and goes on to analyse the main characteristics of a military doctrine Using a multidisciplinary approach the book concludes that doctrine can be utilized in three key ways as a tool of command as a tool of change and as a tool of education This book will be of much interest to students of military studies civil military relations strategic studies and war studies as well as to students in professional military education

Le Precis de Leadership Militaire Bernd Horn, Robert W. Walker, 2008-09-01 Exprim en toute simplicit le leadership consiste influencer les gens afin d atteindre un quelconque objectif qui a de l importance pour le chef le groupe et l organisation C est l l ment humain qui permet aux chefs de diriger de motiver et d inspirer les troupes

surtout en temps de crise lorsque la situation est chaotique et complexe et que les directives les déclarations officielles et les communiqués ne produisent guère d'effet sur les subalternes gélés puis étendus. Un bon leadership incite les subordonnés à aller au-delà du devoir d'obéissance et se dévouer pour la réussite de la mission d'une manière qui contribue à maximiser leur plein potentiel. Le Précis de leadership militaire est un manuel concret et compréhensif qui identifie, critique et explique tous les concepts théoriques et idées qui s'appliquent directement ou indirectement au leadership militaire. Ce livre est un sommaire compréhensif qui a comme point de mire plusieurs sujets dont la cohésion, le commandement, l'intelligence culturelle, la discipline, la peur et la confiance. Ce précis offre une assistance qui veut mieux comprendre la théorie et l'application du leadership militaire.

Rethinking Leadership Thomas J. Sergiovanni, 2007. In this updated collection of revolutionary articles, Sergiovanni encourages school leaders to discover the craft of moral leadership, practice effective instructional leadership, and build strong learning communities.

The Human Face of Church Sara Savage, Eolene Boyd-Macmillan, 2007-10-30. Until now, Fresh Expressions has been about starting and sustaining mission initiatives among people with little or no church contact. As these projects mature, pastoral problems easily arise: how do you integrate the old with the new? How do you get an established congregation to change its views and practices? How do you cope with conflict? What if newcomers challenge set patterns of church behaviour rather than conform with them? The publication is structured for use for training in local churches, theological colleges, and as a research tool in postgraduate study.

Strategy in the 21st Century Lennart Souchon, 2020-06-10. This book presents a detailed discussion of Clausewitz's principal lines of thought and methods of implementation. It elaborates on his main objective of laying a foundation for the education of up-and-coming creative, knowledgeable, and experienced future leaders. The book encourages reflection and study in strategic thinking in order to transform knowledge into genuine capability. The book explores the question of what a twenty-first-century decision maker can learn from these strategic lines of thought. It bridges the gap between philosophical theory and strategic interaction in conflicts with an equal opponent. Readers learn to understand and employ the clash of wills, attack and defence, and friction, and in essence the necessary virtues of a strategic commander. The findings presented help to identify the essential features in complex decision-making situations and developing possible courses of strategic action from a holistic standpoint. As such, the book is a must-read for strategists, business practitioners, and scholars of political leadership and management interested in a better understanding of strategy and decision making.

The War of the Lamb John Howard Yoder, 2009-12-01. John Howard Yoder was one of the major theologians of the late twentieth century. Before his death, he planned the essays and structure of this book, which he intended to be his last work. Now two leading interpreters of Yoder bring that work to fruition. The book is divided into three sections: pacifism, just war theory, and just peacemaking theory. The volume crystallizes Yoder's argument that his proposed ethics is not sectarian and a matter of withdrawal. He also clearly argues that Christian just war

and Christian pacifist traditions are basically compatible and more specifically that the Christian just war tradition itself presumes against all violence Outlook Alfred Emanuel Smith, Francis Walton, 1885 **Congressional Record** United States.
