Night at the Pub: A Tale of Magical Gender Transformation Nikki Crescent, Mark Anthony goes for a drink at a mysterious little pub where he meets an even more mysterious woman who can make fantasies come true including ones Mark didn t know that he had *Adapting Superman* John Darowski,2021-06-04

Almost immediately after his first appearance in comic books in June 1938 Superman began to be adapted to other media The subsequent decades have brought even more adaptations of the Man of Steel his friends family and enemies in film television comic strip radio novels video games and even a musical The rapid adaptation of the Man of Steel occurred before the character and storyworld were fully developed on the comic book page allowing the adaptations an unprecedented level of freedom and adaptability The essays in this collection provide specific insight into the practice of adapting Superman from comic books to other media and cultural contexts through a variety of methods including social economic and political contexts Authors touch on subjects

such as the different international receptions to the characters the evolution of both Clark Kent's character and Superman's powers the importance of the radio how the adaptations interact with issues such as racism and Cold War paranoia and the role of fan fiction in the franchise By applying a wide range of critical approaches to adaptation and Superman this collection offers new insights into our popular entertainment and our cultural history **The Sexualized Body and the Medical Authority of Pornography** Heather Brunskell-Evans, 2017-01-06 This edited collection examines pornography as a material practice that eroticises gender inequality and sexual violence towards women It addresses the complex relationship between pornography and medicine in particular sexology and psychotherapy whereby medicine has historically and currently afforded pornography considerable legitimacy and even authority Pornography naturalises women's submission and men's dominance as if gendered power is rooted in biology not politics In contrast to the populist view that medicine is objective and rational the contributors here demonstrate that medicine has been complicit with the construction of gender difference and in that construction the relationship with pornography is not incidental but fundamental A range of theoretical approaches critically engages with this topic in the light firstly of radical feminist ideas about patriarchy and the politics of gender and secondly of the rapidly changing conditions of global capitalism and digital technologies In its broad approach the book also engages with the ideas of Michel Foucault particularly his refutation of the liberal hypothesis that sexuality is a deep biological and psychological human property which is repressed by traditional patriarchal discourses and which can be freed from authoritarianism for example by producing and consuming pornography In taking pornography as a cultural and social phenomenon the concepts brought to bear by the contributors critically scrutinise not only pornography and medicine but also current media scholarship The 21st century has witnessed a growth in neo liberal academic literature which is pro pornography This book provides a critical counterpoint to this current academic trend and demonstrates its lack of engagement with the politics of the multi billion dollar pornography industry which creates the desire for the product it sells the individualism of its arguments which analyse pornography as personal fantasy and the paucity of theoretical analysis In contrast this book re opens the feminist debate about pornography for a new generation of critical thinkers in the 21st century Pornography matters politically and ethically It matters in the real world as well as in fantasy it matters to performers as well as to consumers it matters to adults as well as to children and it matters to men as well as to women

The Dialectics of Transformation in Africa E. Bongmba, 2006-03-15 A discussion of political and religious crisis in Africa this book covers such topics as democratic transition good governance civil society and the African renaissance Elias K Bongmba proposes humanistic interventions centred on the recovery of interpersonal relations and seeks to understand the ongoing struggles in Africa **Gender's Place** L. Frazier, J. Hurtig, R. Montoya del Solar, 2016-04-30 This collection brings together key theoretical issues and rich ethnographic cases in the feminist anthropology of Latin America in order to explore the ways that place understood both geographically and metaphorically can serve as a key vehicle for analyzing the cultural

social and historical specificity of gender relations and ideologies Like Dorothy Hodgson s volume *Gendered Modernities* the book seeks to unite ethnographic specificity with theoretical cohesion in a way that demonstrates the unique contribution that anthropology can make to gender and area studies
