Curriculum Making in Post-16 Education Martin Bloomer, 2002-03-11 It is widely agreed that the post 16 curriculum in England and Wales is inadequate mainly due to the successive reforms of various governments YTS was a reaction to problems of youth unemployment CPVE and BTEC embraced a broad concept of vocationalism and even with the introduction of NVQ and GNVQ the A level retains its gold standard in the eyes of many The post 16 curriculum that has emerged is hardly coherent So how can teachers translate an externally imposed curriculum into a meaningful learning experience for students Drawing on solid research in post 16 education this book makes explicit the nature of flaws in policy and provides an account of how teachers and students construct their roles It puts forward the case for a radical reappraisal and identifies appropriate aims and organising principles for a post 16 curriculum for the future Martin Bloomer is currently Dean of the Faculty of Education at Exeter University
