Writing and Translating Francophone Discourse Paul F. Bandia, 2014-01-01 This book is a much needed contribution to interdisciplinary research on the intersection of French and Francophone Studies and Translation Studies. It highlights the symbiotic relationship between the two disciplines whereby theories and concepts developed in translation studies provide useful models and paradigms for studying francophone literature while major concepts that hold sway in the francophone world provide a solid basis for elucidating and understanding translation phenomena. The book is at once a contribution to the growing field of postcolonial francophone studies and the sub area of postcolonial translation theory. Contributors are experts from a variety of disciplines and hail from various regions across the globe. What unites them is their interest in translation and its conceptualization both as an interlinguistic practice and a metaphor for intercultural communication and transcultural relations. The contributions draw on literature film historical documents and critical theories by French and francophone thinkers highlighting the significance of translation for African Caribbean and migrant francophone discourse.

**Slam School** Bronwen Low, 2011-03-22 Mainstream rap's seductive blend of sexuality violence and bravado hardly seems the stuff of school curricula And chances are good that the progressive and revolutionary underground hip hop of artists such as The Roots or Mos Def is not on the playlists of most high school students That said hip hop culture remains a profound influence on contemporary urban youth culture and a growing number of teachers are developing strategies for integrating it into their classrooms While most of these are hip hop generation members who cannot imagine leaving the culture at the door this book tells the story of a white teacher who stepped outside his comfort zone into the rich and messy realm of student popular investments and abilities Slam School takes the reader into the heart of a poetry course in an urban high school to make the case for critical hip hop pedagogies Pairing rap music with its less controversial cousins spoken word and slam poetry this course honored and extended student interests It also confronted the barriers of race class gender and generation that can separate white teachers from classrooms of predominantly black and Latino students and students from each other Bronwen Low builds a surprising argument the very reasons teachers might resist the introduction of hip hop into the planned curriculum are what make hip hop so pedagogically vital Class discussions on topics such as what one can and cannot say in the school auditorium or who can use the N word raised pressing and difficult questions about language culture and identity As she reveals an innovative student centered pedagogy based on spoken word curriculum that is willing to tolerate conflict as well as ambivalence has the potential to air tensions and lead to new insights and understandings for both teachers and students
