Mutyambizi,2025-02-05 This book is a true story of the author and his siblings who were orphaned when they were very young However their father Leon on his death bed prayed his last prayer Lord God I want my children to go to School After that prayer he turned and faced the wall and died It was that fervent prayer that directly reached Heaven and the writer strongly believe that The Mighty God of Israel swiftly dispatched an Angel to guard guide protect and nurture Leon s orphans and they excelled Leon had two wives and after his death whilst the widows were still moaning they were subjected to more intense trauma exerted by some extended family members over inheritance This led to sharp differences and culturally the widows were left with no option except to go back to their original families leaving their children behind The Lord of Turnaround the Most Merciful and the Most Gracious God of Israel threw the garment of grace on Leon s children particularly Memory and Sabastian as they climbed up the ladder of success academically spiritually and economically They both reside happily with their families in Australia They completely fulfilled their father the late Leon s dream as they traversed through university corridors in Zimbabwe U K Australia and USA Over a relatively long time they accrued several academic and professional qualifications Conclusively if the Grace of God locates you and submerge you honestly one can do extra ordinary things that will surprise relatives friends and even enemies This book is a clear testimony that shows that WITH THE GRACE OF GOD THE WEAK CAN ALSO CLIMB **Education in Southern Africa** Clive Harber,2013-09-12

variety of reasons such as thinking that it is boring or takes up too much of their time Some even believe that they do not have to pace their studying throughout a semester Instead they cram about a week before the exams and feel this is more effective because the pressure forces them to think However students who do not take advantage of studying now while still in school are robbing themselves of truly meaningful learning experiences If you ask any adult they would most likely say that they barely have time to read history literature and other rich sources of knowledge because of work and family responsibilities In order to become an effective learner and this includes being able to create an efficient study planner you must establish a strong foundation for learning The concept of studying lies in the desire to learn It is not truly about passing tests and getting grades Teachers and institutions only give tests and grades as a way to measure the effectiveness of their teaching strategies The real purpose of studying is to expand your knowledge on a particular subject to prepare you for specific tasks in the future If you cannot determine exactly how you might use this knowledge just think of the studying as sharpening your mind In this book you will find various memorization techniques to aid you in retaining important information for exams Finally you will find exam preparation strategies to greatly boost your study skills
