As a novel of post-World War II America, *Catch 22* is profound in its conception, complex in its artistry, and radical in its message. Each Bright Notes Study Guide contains introductions to the author and the work, character summaries, plot guides, section and chapter overviews, test essay, and study Q&A. countries Results are often described solely in terms of a passage reading subtask thereby overlooking progress in related skills Using archival data of cohort samples from Uganda at two time points in three languages Ganda Lango and Runyankore Rukiga we explored a methodology that uses passage reading results to create five learner profiles Nonreader Beginner Instructional Fluent and Next Level Ready We compared learner profiles with results on other subtasks to identify the skills students would need to develop to progress from one profile to another We then used regression models to determine whether students learner profiles were related to their results on the various subtasks We found membership in four categories We also found a shift in the distribution of learner profiles from Grade 1 to Grade 4 which is useful for establishing program effectiveness The distribution of profiles within grades expanded as students progressed through the early elementary grades We recommend that those who are discussing EGRA results describe students by profiles and by the numbers that shift from one profile to another over time Doing so would help describe abilities and instructional needs and would show changes in a meaningful way
