1. Sebastián Rodríguez Cermeño is the explorer described in the box. In the 16th century, the Philippines in Southeast Asia became a Spanish colony. Shortly after the Spanish started their new colony, they began shipping goods such as silks, jewels, spices, and china across the Pacific Ocean to Acapulco in Mexico. He rounded the tip of the peninsula and sailed about halfway up the west coast of the Baja Peninsula before turning around to head back to Acapulco.
4. Some of the first Spanish explorers in North America believed there was an island called California. In the early 16th century, a Spanish writer wrote a book called *Las Sergas de Esplandián* (*The Exploits of Esplandián*). In this book, the

aspects of the spatial planning of neighbourhoods and towns whilst emphasising positive outcomes for people's health and global sustainability. This new edition retains the combination of radicalism, evidence-based advice and pragmatism that made earlier editions so popular. - Understanding the principles for planning healthy and sustainable neighbourhoods and towns
- Planning collaborative and inclusive processes for multi-sectoral working
- Developing know-how and skills in matching local need with urban form
- Discovering new ways to integrate development with natural systems
- Designing places with character and recognising good urban form

Whether you are a student faced with a local planning project, a public health professional, planner, urban designer or developer involved in new development or regeneration, a council concerned with promoting healthy and sustainable environments or a community group wanting to improve your neighbourhood, you will find help here.
