 Otwinowska, Gessica De Angelis, 2014-01-09 It is clearly illogical to search for one good universal solution for multilingual
 education when educational contexts differ so widely due to demographic and social factors The situation is further
 complicated by the motivations of learners and teachers and by attitudes towards multilingualism and otherness The studies
 in this volume seek to investigate not only whether certain solutions and practices are good but also when and for whom they
 make sense The book covers a wide range of Western multilingual contexts and uncovers common themes and practices
 shared aims and preoccupations and often similar solutions within seemingly diverse contexts In addition to chapters based
 on empirical data this book offers theoretical contributions in the shape of a discussion of the appropriateness of L1 L_n
 terminology when discussing complex multilingual realities and looks at how the age factor works in classroom settings
