Traoré, 2023-11-30 Between the seventeenth and eighteenth centuries more than fifteen million people were uprooted from West Africa and enslaved in the Trans Saharan and Transatlantic slave systems The state of Gajaage located on the West African hinterland offered a doorway to the Atlantic Ocean and played a central role in the wide scale trade system that connected the histories of Africa the Americas and Europe Focussing on the Soninke of Gajaaga Makhroufi Ousmane Traor demonstrates how their resistance to the slave trades led to the formation of a united community bound by an awareness of identity This original study expands our understanding of the various modes of resistance West Africans employed to stem the encroaching tide of Arab imperializing efforts European mercantile capitalism and the Atlantic slave trade whilst also highlighting how ethnic and religious identities were constructed and mobilized in the region *Slavery Stole My Identity - and other stories* Brian Moyo, **Slavery I North America , Long Past Slavery** Catherine A. Stewart, 2016-02-05 From 1936 to 1939 the New Deal s Federal Writers Project collected life stories from more than 2 300 former African American slaves These narratives are now widely used as a source to understand the lived experience of those who made the transition from slavery to freedom But in this examination of the project and its legacy Catherine A Stewart shows it was the product of competing visions of the past as ex slaves memories of bondage emancipation and life as freedpeople were used to craft arguments for and against full inclusion of African Americans in society Stewart demonstrates how project administrators such as the folklorist John Lomax white and black interviewers including Zora Neale Hurston and the ex slaves themselves fought to shape understandings of black identity She reveals that some influential project employees were also members of the United Daughters of the Confederacy intent on memorializing the Old South Stewart places ex slaves at the center of debates over black citizenship to illuminate African Americans struggle to redefine their past as well as their future in the face of formidable opposition By shedding new light on a critically important episode in the history of race remembrance and the legacy of slavery in the United States Stewart compels readers to rethink a prominent archive used to construct that history **Desegregating the Past** Robyn Autry, 2017-02-07 At the Apartheid Museum in Johannesburg South Africa visitors confront the past upon arrival They must decide whether to enter the museum through a door marked whites or another marked non whites Inside along with text they encounter hanging nooses and other reminders of apartheid era atrocities In the United States museum exhibitions about racial violence and segregation are mostly confined to black history museums with national history museums sidelining such difficult material Even the Smithsonian s National Museum of African American History and Culture is dedicated not to violent histories of racial domination but to a more generalized narrative about black identity and culture The scale at which violent racial pasts have been incorporated into South African national historical narratives is lacking in the U S Desegregating the Past considers why this is the case tracking the production and display of historical representations of racial pasts at museums in both countries and what it reveals about underlying social anxieties unsettled emotions and aspirations surrounding contemporary social fault lines around race

Robyn Autry consults museum archives conducts interviews with staff and recounts the public and private battles fought over the creation and content of history museums Despite vast differences in the development of South African and U S society Autry finds a common set of ideological political economic and institutional dilemmas arising out of the selective reconstruction of the past Museums have played a major role in shaping public memory at times recognizing and at other times blurring the ongoing influence of historical crimes The narratives museums produce to engage with difficult violent histories expose present anxieties concerning identity mis recognition and ongoing conflict Identity Brian Byrne,2019-08-16 In the beginning they were called disciples and the early believers knew what the word meant Disciples were those who trusted the Lord knew His voice followed Him wherever He led them and were obedient to everything He told them to do Then a Roman government official in Antioch invented a new name He called the disciples in this church Christianoi Christian and the identity of disciples slowly began to disappear Today only one the term Christian is widely used in churches round the world But even this name has been interpreted in as many ways as there are church denominations In his book Dr Brian has examined each of the six names for disciples that the scriptures use sinner saint child of God Christian disciple bond slave He treats each of the six names not merely as useful information but as teachings that can profoundly influence the lives of those who long to be the Lord s disciples In his final chapters Dr Brian takes a careful look at what the cross means for disciples He presents a number of valuable biblical principles that both inform and challenge those who long to follow the Lord as His disciples in the twenty first century **White Creole Culture, Politics and Identity During the Age of Abolition** David Lambert,2005-07-21 This book explores the articulation of white creole identity in Barbados during the age of abolitionism **The Times Style Guide: A practical guide to English usage** Ian Brunskill,Times Books,2022-05-12 The official style guide followed by The Times and The Sunday Times Uncover the rules conventions and policies on spelling grammar and usage followed by the journalists contributors and editors working on the Times and Sunday Times newspapers Now updated with all the latest policy decisions *The Rhetoric of White Slavery and the Making of National Identity* Leslie J Harris,2023-07-01 At the turn of the twentieth century the white slavery panic pervaded American politics influencing the creation of the FBI the enactment of immigration law and the content of international treaties At the core of this controversy was the maintenance of white national space In this comprehensive account of the Progressive Era s sex trafficking rhetoric Leslie Harris demonstrates the centrality of white womanhood as a symbolic construct to the structure of national space and belonging Introducing the framework of the mobile imagination to read across different scales of the controversy ranging from local to transnational she establishes how the imaginative possibilities of mobility within public controversy work to constitute belonging in national space

The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and gripping novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
