Measuring History S. G. Grant,2009-03-01 Measuring History complements the cases presented in Wise Social Studies Practices Yeager Davis 2005 Yeager and Davis highlight the rich and ambitious teaching that can occur in the broad context of state level testing In this book the chapter authors and I bring the particular state history tests more to the fore and examine how teachers are responding to them At the heart of Measuring History are cases of classroom teachers in seven states Florida Kentucky Michigan New York Texas Mississippi and Virginia where new social studies standards and new and generally high stakes state level history tests are prominent In these chapters the authors

describe and analyze the state's testing efforts and how those efforts are being interpreted in the context of classroom practice. The results both support and challenge prevailing views on the efficacy of testing as a vehicle for educational reform. Catherine Horn, University of Houston, and I lay the groundwork for the case studies through a set of introductory chapters that examine the current environment, the research literature, and the technical qualities of history tests. Sisters on Screen Eva Rueschmann, 2000 Perhaps the most vital, emotionally complex, and lasting attachments between women occur between sisters. Whether as best friends or antagonists, sisters remain entangled in a common tapestry of mutual experience and remembrance. Family and history, according to author Eva Rueschmann, Although many of the women-centered films in the last three decades depict the relationship between sisters as a pivotal aspect of a character's psychological development, the now substantial body of feminist film criticism has not taken up this theme in any sustained way. In *Sisters on Screen*, Eva Rueschmann explores the sister bond in a wide range of modernist feature films that depart from the conventional cinematic rendering of women's lives. Drawing on the psychoanalytic concept of intersubjectivity, this book emphasizes the role of a woman's relationship and inner world in her continual quest for self-knowledge. Offering an original and absorbing perspective on women's filmic images, *Sisters on Screen* reveals how post-1960s cinema has articulated the ways in which biological sisters negotiate mutuality and difference, co-author family histories, and profoundly shape each other's political and personal identities. The films in focus question standards of femininity as they probe into memory, fantasy, and desire, bringing women's realities into view in the process. Structuring her discussion in terms of life cycle stages—adolescence and adulthood—Rueschmann offers an in-depth discussion of such films as *An Angel at My Table*, *Double Happiness*, *Eve's Bayou*, *Gas Food Lodging*, *Heavenly Creatures*, *Little Women*, *Marianne and Julianne*, *Paura e amore*, *Peppermint Soda*, *The Silence*, *Sweetie*, and *Welcome to the Dollhouse*.
