An Introduction and Study Guide Abraham Smith, 2017-01-12 This Guide reads the Gospel of Mark as a 1st century CE story about Jesus for his followers and against tyranny or the abusive use of power First the book shows students how the Gospel uses the form of a traditional laudatory biography a Life to reshape the memory of the shame ridden trials and suffering of Jesus Such a biography portrayed Jesus descent as a son of God his deeds and his heroic death dispelling any notion that the teacher Jesus was a charlatan or huckster Second Smith demonstrates how the Gospel devotes a great deal of space to Jesus training of his disciples as he calls commissions and corrects them in preparation for the difficult moments of their journey Third Smith highlights the Gospel s special characterizations of Jesus as a prophetic envoy a man of authority and a philosophical hero contrasting Jesus use of power with the abusive use of power by Rome s representatives Herod Antipas and Pilate

**Reader Response in Secondary and College Classrooms** Nicholas J. Karolides, 2013-04-15 This text, based on Louise M. Rosenblatt's transactional model of literature, focuses on the application of transactional reader response theory in the classroom. It grows from frequent requests from secondary school and college teachers for teaching suggestions on how to put theory into practice. This is not a "What should I do on Monday" cookbook, but an expression of the practice of theory in college and secondary school classrooms. The chapters portray a spectrum of strategies, including biopoems, expressive and imaginative writing, journal writing, readers theater, role playing, and unsent letters, using as examples individual works from several genres. Recognizing that teachers who may have been trained in other theories and methodologies may be hesitant about their quite different role and expectations in the reader-centered classroom, the authors provide stepping stones to develop readiness and confidence, suggestions and insights to ease the transition to the transactional model of teaching and learning. Pedagogical features: An explanatory introduction to each section defines its orientation and describes the content and direction of the chapters; it contains Invitations, which elicit engagement of readers with concepts, attitudes, or strategies presented in the chapters; they invite readers as individuals or members of a small group to consider ideas or to practice a strategy among other activities in order to enhance understandings. A glossary defines key concepts and strategies discussed in the text. A bibliography provides an extensive list of resources, books, and journal articles, both theoretical and applied. New in the second edition: Six new chapters; three deal with the roles of film as literature in the English classroom and three with enhancing multicultural understandings. Updates and revisions to several chapters that

appeared in the first edition. Invitations new in this edition have been added to focus and expand readers' thinking.
