Teaching Tough Topics Larry Swartz, 2020-01-15 Teaching Tough Topics shows teachers how to lead students to become caring citizens as they read and respond to quality children's literature. It focuses on topics that can be challenging or sensitive yet are significant in order to build understanding of social justice, diversity and equity. Racism, Homophobia, Bullying, Religious Intolerance, Poverty and Physical and Mental Challenges are just some of the themes explored. The book is rooted in the belief that by using picture books, novels, poetry and nonfiction, teachers can enrich learning with compassion and empathy as students make connections to texts, to others and to the world. *Real-World Writers: A Handbook for Teaching Writing with 7-11 Year Olds* Ross Young, Felicity Ferguson, 2020-05-28 Real World Writers shows teachers how they can teach their pupils to write well and with pleasure, purpose and power. It demonstrates how classrooms can be transformed into genuine communities of writers where talking, reading, writing and sharing give children confidence, motivation and a sense of the relevance writing has to their own lives and learning. Based on their practical experience and what research says is the most effective practice, the authors share detailed guidance on how teachers can provide writing study lessons drawing on what real writers do and how to teach grammar effectively. They also share a variety of authentic class writing projects with accompanying teacher notes that will encourage children to use genres appropriately, creatively and flexibly. The authors' simple yet comprehensive approach includes how to teach the processes and craft knowledge involved in creating successful and meaningful texts. This book is invaluable for all primary practitioners who wish to teach writing for real. Language Curriculum Design John Macalister, I.S.P. Nation, 2019-12-23 Now in its second edition, Language Curriculum Design describes the steps involved in the curriculum design process, elaborates and justifies these steps and provides opportunities for practising and applying them. Updated throughout with cutting edge research and theory, the second edition contains new examples on curriculum design and development and expanded attention on environment analysis, needs analysis and programme evaluation. The process comes to life through plentiful examples of actual applications from the authors' experience and from published research. Each chapter also includes tasks that encourage readers to relate the steps to their own experience and case studies and suggestions for further reading.
